# EXECUTIVE SUMMARY

on Unaudited Results for the 3 months ended March 31, 2025

In comparison to the prior year, the Group's financial results for the three months ended March 31, 2025, showed improvement across several key areas: the insurance service result improved by 36%; the net loss by 44%; and the total comprehensive loss by 50%.

The Bahamas Property and Casualty ("P&C") segment was the primary driver of the improvements in both the insurance service result and the net loss. While several factors contributed to these results, notable items include growth in the motor portfolio and an improvement in the expected credit loss provision.

In Cayman we also recorded improvements in the net loss for both P&C and Health and Group Life segments, although the positive changes were marginal compared to the prior year. The insurance service result for the P&C segment declined slightly relative to the previous quarter, primarily due to a higher motor loss ratio driven by adverse development on prior year claims.

## 3. SEASONALITY

The Property and Casualty insurance business is seasonal in nature with the bulk of the catastrophe insurance revenue being recognised during the hurricane months of June to November. The insurance service result is driven mainly by claims associated with weather conditions and may vary significantly between quarters. Profit commission earned from reinsurers and paid to agents are significantly impacted by natural catastrophes and are therefore recorded only in the fourth quarter.
