INDEPENDENT AUDITORS' REPORT

To the Shareholder of Commonwealth Bank Limited

Opinion

We have audited the consolidated financial statements of Commonwealth Bank Limited and its subsidiaries ("the Group"), which comprise the consolidated statement of financial position as at December 31, 2025, the consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising material accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2025, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards ("IFRSs") Accounting Standards as issued by the International Accounting Standards Board (IFRS Accounting Standards).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants International Code of Ethics for Professional Accountants (including International Independence Standards) (the "IESBA Code") that are relevant to audits of the consolidated financial statements of public interest entities, and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matters (continued)

Impairment assessment of loans and advances to customers (“Loans”) (see notes 2(f), 9 & 22)	
Key audit matter	How the matter was addressed in our audit
<p>As at December 31, 2025, Loans represented 49.11% of the Group’s total assets, comprising \$965.60 million in gross loans with an expected credit loss (“ECL”) allowance of \$40.36 million. The portfolio includes consumer, commercial and mortgage loans.</p> <p>The Group measures ECL based on loan staging requirements as follows:</p> <ul style="list-style-type: none"> • Stage 1: 12-month ECL, calculated using the Probability of Default (“PD”)—the likelihood of default within 12 months, Loss Given Default (“LGD”)—the expected loss if a default occurs (after considering collateral), and Exposure at Default (“EAD”)—the expected balance at the time of default, discounted to present value. • Stage 2: Lifetime ECL, determined using lifetime PD, LGD and EAD over the expected life of the loan, discounted to present value. • Stage 3: For credit-impaired loans, ECL is calculated by applying LGD to the outstanding balance. <p>Significant judgment is required in determining these ECL estimates due to:</p> <ul style="list-style-type: none"> • PD modelling: PDs are derived using transition matrices that estimate the probability of migrating between internal risk grades, requiring forward-looking assessment. • Significant Increase in Credit Risk (“SICR”): SICR is assessed based on internal and external indicators within a subjective risk-rating framework, which significantly affects whether loans are classified in Stage 1 or Stage 2. 	<p>As part of our procedures, we performed the following:</p> <ul style="list-style-type: none"> - Obtained an understanding of the methodology, models and assumptions used in the ECL calculation through inquiries with the Group’s CFO and inspection of policy documents. - Tested the design and implementation of controls over the review and approval of key ECL assumptions and judgments by those charged with governance. - Reconciled the loan balances used in the ECL model to the gross loan balances recorded in the general ledger. - On a sample basis, validated the accuracy of key ECL data inputs by inspecting loan documentation, reviewing financial information recorded in the Group’s core system, and evaluating third-party collateral appraisals. Key inputs included loan balances, interest rates, maturities, collateral values, days past due, credit scores and loan status. - On a sample basis, tested collateralized exposures by obtaining and evaluating third-party appraisal reports, comparing market data and price-per-square-foot benchmarks, and assessing the competence and objectivity of the appraisers. - For a sample of foreclosed properties, we compared actual sales to estimated forced-sale values and analyzed recovery periods and rates. - Assessed the adequacy of the related ECL disclosures to determine whether key judgments and assumptions were clearly

Independent Auditors’ Report *(continued)*

Impairment assessment of loans and advances to customers (“Loans”) (see notes 2(f), 9 & 22)	
Key audit matter	How the matter was addressed in our audit
<ul style="list-style-type: none"> • Forward-Looking Indicators (“FLI”): The Group applies a scorecard incorporating macroeconomic variables to adjust models for expected future economic conditions. • Internal Risk Ratings (“IRR”): Each loan is assigned a credit rating (1–8) under the Group’s risk framework based on selected borrower and loan characteristics, involving judgment. • LGD modelling: LGD estimates, for Stage 3 exposures, rely on an internal assessment of the recoverable value of collateral, which is inherently subjective due to reliance on appraisal inputs and market factors. <p>The combination of complex modelling, reliance on assumptions and judgments, and the materiality of the loan portfolio results in a high degree of estimation uncertainty. Accordingly, the impairment assessment of Loans is a key audit matter.</p>	<p>presented in the consolidated financial statements.</p> <p>Used our own Credit Risk Specialist (“CRS”) specialist to assist us in performing the procedures below:</p> <ul style="list-style-type: none"> - Assessing the theoretical soundness and appropriateness of the Loans ECL models, focusing on PD, SICR, LGD, IRR, and FLI. - Observing walkthroughs of the Loans ECL model inputs, outputs, and processes, and executed a supervised replication to evaluate model outputs and results. - Evaluating the Group’s ECL calculation methodology and final parameters, including PD, LGD, EAD, expected lifetime, SICR, effective interest rate, and FLI. - Assessing the IRR model’s risk rating scores, ranges, and loan characteristics. - Performing a retrospective evaluation of the 12-month PD for the period 2018 to 2025 to evaluate the ECL model’s predictive accuracy.

Other Information

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Independent Auditors' Report *(continued)*

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditors' report is Demarra Williams-Lockhart.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

1. Incorporation and Activities

Commonwealth Bank Limited (the “Bank”) was incorporated in The Commonwealth of The Bahamas (“The Bahamas”) on April 20, 1960, and is licensed by the Central Bank of The Bahamas (the “Central Bank”) to carry out banking business in The Bahamas under the provisions of the Banks and Trust Companies Regulations Act 2020.

The Bank’s shares are publicly traded and listed on The Bahamas International Securities Exchange (“BISX”).

The principal activities of the Bank and its subsidiaries (the “Group”) are described in Notes 4 and 6. The registered office of the Bank is situated at Sassoon House, Shirley Street, Nassau, The Bahamas.

2. Summary of Material Accounting Policies and Basis of Preparation

(a) Basis of preparation

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS Accounting Standards”) as issued by the International Accounting Standards Board. These policies have been consistently applied to all years presented and are compliant with IFRS Accounting Standards.

(b) Use of estimates and judgments

The preparation of financial statements in conformity with IFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise judgment in the process of applying the Group’s accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to estimates are recognised prospectively. Actual results could differ from those estimates.

The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements, are disclosed in Note 3.

(c) Principles of consolidation

The consolidated financial statements include the assets, liabilities, financial performance and cash flows of the Bank and all of its subsidiaries, after the elimination of intercompany transactions and balances. Subsidiaries are defined as entities controlled by the Bank and exclude associates and joint arrangements. The Bank controls an entity when the Bank is exposed, or has rights, to variable returns from its involvement with the entity and can affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Bank. They are deconsolidated from the date that control ceases.

Intra-Group transactions, balances and unrealised gains on transactions are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. The accounting policies of subsidiaries are consistent with the policies adopted by the Bank.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Voting-interest subsidiaries

Control is presumed when the Group has an ownership interest in an entity that gives it the ability to direct the activities of that entity that significantly impact that entity's returns and where the Group is exposed to the variability of the returns of that entity.

(d) Changes in material accounting policies

New standards, amendments and interpretations adopted by the Group

Standards and amendments and interpretations to published standards that became effective for the Group's financial year, beginning on January 1, 2025 were either not relevant or not significant to the Group's consolidated operations and accordingly did not have a material impact on the consolidated accounting policies or consolidated financial statements.

Accounting standards issued but not yet effective

IFRS Accounting Standard 18 will replace IAS 1 *Presentation of Financial Statements* and applies for annual reporting periods beginning on or after January 1, 2027. The new standard introduces the following key new requirements:

- Entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely the operating, investing, financing, discontinued operations and income tax categories. Entities are also required to present a newly-defined operating profit subtotal. Entities' net profit will not change.
- Management-defined performance measures ("MPM") are disclosed in a single note in the financial statements.
- Enhanced guidance is provided on how to group information in the financial statements.

In addition, all entities are required to use the operating profit subtotal as the starting point for the statement of cash flows under the indirect method.

The Group is still in the process of assessing the impact of the new standard, particularly with respect to the structure of the Group's statement of profit or loss, the statement of cash flows and the additional disclosures required for MPM.

No other new standards and amendments and interpretations to existing standards that have been published but are not yet effective are expected to have a material impact on the Group's accounting policies or consolidated financial statements in the financial period of initial application.

(e) Financial assets and financial liabilities

Financial assets

Recognition

A financial asset is any asset that is cash, a contractual right to receive cash or another financial asset, or to exchange financial instruments with another enterprise under conditions that are potentially favourable or an equity instrument of another enterprise.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

The Group's financial assets are cash and deposits with banks, investments, loans and advances to customers, and accounts receivable (included in other assets and is not material) on the Consolidated Statement of Financial Position.

Classification and measurement

The Group classifies its financial assets in the following measurement categories:

1. Amortised cost

On initial recognition, a financial asset is measured at amortised cost if both of the following conditions are met: (a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and (b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding.

Financial assets classified at amortised cost are carried at the amount at which the asset was measured upon initial recognition, minus principal repayments, plus or minus the cumulative amortisation of any premium or discount, and minus any write-down for expected credit losses ("ECL").

2. Fair value through profit or loss ("FVTPL")

A financial asset is measured at FVTPL if it does not meet the criteria to be measured at amortised cost or at fair value through other comprehensive income ("FVOCI").

The classification of financial assets is generally based on the business model under which the asset is held and its contractual cash flow characteristics as described below.

The classification and subsequent measurement of financial assets are determined by the Group's business model for managing the financial asset, and the cash flow characteristics of the financial asset.

Business model assessment

A business model assessment is performed to determine how a portfolio of financial assets is managed to achieve the Group's business objectives. Judgment is used in determining the appropriate business model for a portfolio of financial assets. The three categories of business models are "hold to collect", "hold to collect and sell", and "other".

For the assessment of a business model, the Group takes into consideration the following factors:

- How the performance of assets in a portfolio is evaluated and reported to the Group's management;
- How compensation is determined for the Group's business lines' management that manages the assets;
- Whether the assets are held for trading purposes i.e., assets held within a business model and how those risks are managed; and
- The frequency and volume of sales in prior periods and expectations about future sales activity. Information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's stated objective for managing the financial assets is achieved and how cash flows are realised.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Financial assets that are not held to collect, or both held to collect, and sell are assessed at a portfolio level reflective of how the asset or group of assets are managed together to achieve a particular business model.

Contractual cash flow assessment

The contractual cash flow characteristics assessment involves assessing the contractual features of an instrument to determine if they give rise to cash flows that are consistent with basic credit arrangements. Contractual cash flows are consistent with basic credit arrangements if they represent cash flows that are solely payment of principal and interest (“SPPI”) on the principal amount outstanding.

In assessing whether the contractual cash flows are SPPI, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Group considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Group’s claim to the cash flows from specified assets; and
- features that modify consideration of the time value of money.

Principal is defined as the fair value of the instrument at initial recognition. Principal may change over the life of the instrument due to repayments or amortisation of premiums/discounts. Interest is defined as the consideration for the time value of money and the credit risk associated with the principal amount outstanding and for other basic lending risks and costs (liquidity risk and administrative costs), and a profit margin.

If the Group identifies any contractual features that could significantly modify the cash flows of the instrument such that they are no longer consistent with a basic lending arrangement, the related financial asset is classified and measured at FVTPL.

With the exception of investments in equity securities, all financial instruments are classified at amortised cost at the reporting date. Investments in equity securities are classified at FVTPL.

Management has assessed whether any portfolios of debt instruments meet the ‘hold to collect and sell’ business model and confirms that, at the reporting date, no portfolios of debt instruments have been designated and measured at FVOCI because the Group’s documented business models are to hold those instruments to collect contractual cash flows and therefore they are measured at amortised cost.

Equity instruments: the Group has not chosen the irrevocable FVOCI option for equity investments; all equity investments are carried at FVTPL.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Initial Recognition

The Group initially recognises loans and advances to customers and deposits from customers on the date on which they are originated. All other financial instruments, (including regular-way purchases and sales of financial assets) are recognised on the trade date, which is the date on which the Group becomes a party to the contractual provisions of the instrument. When a new financial asset is recognised, it will generally be recorded in Stage 1, unless it is credit-impaired on recognition.

Initial Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at FVTPL, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in profit or loss.

Subsequent Measurement

Subsequent measurement of financial assets depends on the Group's business model for managing the asset and the cash flow characteristic of the asset. The two measurement categories are as noted above.

Reclassification

Financial assets are not reclassified after their initial recognition, except in the period after the Group changes its business model for managing financial assets.

Modification

The terms of a financial asset may be modified such that the contractual cash flows are changed. The treatment of a modification depends on the nature of the expected changes.

If the cash flows are substantially different, the contractual rights to cash flows from the original asset are deemed to have expired. In this case, the original financial asset is derecognised and a new financial asset is recognised at fair value plus any eligible transaction costs. Any fees received as part of the modification are accounted for as follows:

- fees that are considered in determining the fair value of the new asset and fees that represent reimbursement of the eligible transaction costs are included in the initial measurement of the asset; and
- other fees are included in profit or loss as part of the gain or loss on derecognition.

If cash flows are modified when the borrower is in financial difficulty, then the objective of the modification is usually to maximise recovery of the original contractual terms rather than to originate a new asset with substantially different terms. If the Group plans to modify a financial asset in a way that would result in forgiveness of cash flows, then it first considers whether a portion of the asset should be written off before the modification takes place. The financial asset continues to be monitored for increases in credit risk and impairment.

When modification results in derecognition, a new loan is recognised and allocated to Stage 1 (assuming it is not credit-impaired at the time).

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

If the modification of a financial asset measured at amortised cost does not result in derecognition of the financial asset, the gross carrying amount of the financial asset is recalculated using the original effective interest rate of the asset and the adjustment is recognised as a modification gain or loss in profit or loss.

Derecognition

Financial assets are de-recognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership. For loans and advances to customers, this generally occurs when borrowers repay their obligations, or the loans are sold or written off. Similarly, for investments this occurs when the investments mature and the contractual payments underlying the investments have been repaid to the Group, or when the investment is sold or written off. If the Group has neither transferred nor retained substantially all the risks and rewards of ownership, an assessment is made whether the Group has retained control of the financial assets.

Financial liabilities

Financial liabilities are any liabilities that are:

- Contractual obligations to deliver cash or another financial asset to another entity or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavourable to the Group;
- Contracts that will or may be settled in the Group's own equity instruments and are either a non-derivative for which the Group is or may be obliged to deliver a variable number of its own equity instruments, or a derivative that will or may be settled either by exchange of a fixed amount of cash or another financial asset for a fixed number of the Group's own equity instruments.

Financial liabilities are classified as either a) FVTPL or b) amortised cost.

Financial liabilities are classified as FVTPL where the financial liability is either held for trading or is designated as FVTPL. Financial liabilities at FVTPL are stated at fair value with any resulting gain or loss recognised in the Consolidated Statement of Profit or Loss and Other Comprehensive Income.

Initial Measurement

Financial liabilities classified at amortised cost are initially measured at fair value, net of transaction costs.

Subsequent Measurement

Subsequently measured at amortised cost using the effective interest method with interest expense recognised on an effective yield basis.

Derecognition

The Group's financial liabilities comprise deposits from customers, lease liabilities, and certain other liabilities, including accounts payable. Financial liabilities (or parts thereof) are derecognised when the liability has been extinguished and the obligation specified in the contract is discharged, cancelled, or expires.

All of the Group's financial liabilities are classified at amortised cost.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

(f) Impairment of financial assets measured at amortised cost

The Group recognises Expected Credit Loss (“ECL”) on financial assets measured at amortised cost. ECL for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Impairment losses are measured at an amount equal to the 12-month ECL or lifetime ECL depending on the stage in which the asset is classified. 12-month ECL are the portion of ECL that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months). Lifetime ECL are the ECL that results from all possible default events over the maximum contractual period of exposure.

The maximum period considered when estimating ECL is the maximum contractual period over which the Group is exposed to credit risk.

ECL of financial assets is recognised in three stages:

Stage 1 – Performing financial assets are categorised as Stage 1 and an allowance is recognised based on default events expected to occur within the next 12 months. On subsequent reporting dates, 12-month ECL continues to apply where there is no significant increase in credit risk (“SICR”) since initial recognition and the instrument is not credit-impaired.

Stage 2 – Performing financial assets are categorised as Stage 2 when there is a SICR since initial recognition but the financial asset is not credit-impaired. The Group recognises the full lifetime ECL on Stage 2 financial assets.

In determining whether a SICR has occurred since initial recognition, and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group’s historical experience and informed credit assessment and forward-looking information. Critical accounting judgments and key sources of estimates are discussed in Note 3.

The assessment of whether an asset is in stage 1 or 2 considers the relative change in the probability of default occurring over the expected life of the instrument, and is not assessed based on the change in the amount of the ECL. This involves setting quantitative tests combined with additional indicators such as credit risk classification and other observable inputs. Assets that are more than 30 days past due, but not credit-impaired, are classed as stage 2.

Changes in the expected credit loss, including the impact of movements between the first stage (12 month ECL) and the second stage (lifetime ECL), are recorded in profit or loss.

Stage 3 - If one or more default events occur which are expected to have an adverse effect on the estimated future cash flows from the financial asset, the Group continues to recognise the full lifetime ECL. At this stage, the financial asset is credit-impaired and categorised as Stage 3.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

The Group considers all financial assets, except for sovereign and government-related debt to be in credit-impaired when:

- The credit facility is 90 days or more past due;
- The borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group through actions such as realising security (if any held); and/or
- The borrower is on principal-only repayment terms.

IFRS Accounting Standard 9 does not alter the Group's definition of default currently used and noted above to determine whether or not there is objective evidence of impairment of a financial asset. The definition of default largely aligns with that applied by the Group for regulatory capital purposes.

The Group shall consider its investment in sovereign and government-related debt to have defaulted when payments or an obligation are not made on the agreed date due or when other relevant qualitative and quantitative information becomes available to the Bank, indicating that the sovereign and government-related debt will go into default on or before the reporting date, or within twelve months after the reporting date. In the event the payment or an obligation due date falls on a non-business day, the instrument is deemed to have effectively defaulted where the payment or obligation is not met within three (3) business days of the due date.

Where payments or an obligation on sovereign and government-related debt is resumed, the default status is deemed cured where payments or obligations are met in full for at least one (1) year from the breach of the sovereign credit arrangement.

Measurement of ECL

ECL is a probability-weighted estimate of credit losses, and measurement of ECL is disclosed in Note 22. ECL for financial assets that are credit-impaired at the reporting date are measured as the difference between the gross carrying amount and the present value of estimated future cash flows. ECL on undrawn loan commitments are measured as the present value of the difference between the contractual cash flows that would be due to the Group if the commitment were drawn down and the cash flows that the Group expects to receive.

When discounting future cash flows, the following discount rates are used:

- financial assets: the original effective interest rate or an approximation thereof; and
- undrawn loan commitments: the effective interest rate, or an approximation thereof, that will be applied to the financial asset resulting from the loan commitment.

Write-off of loans and advances to customer

Loans and advances to customers (and the related ECL) are normally written off, either partially or in full, when there is no realistic prospect of recovery of the principal amount and, for a collateralised loan, when the proceeds from realising the security have been received. Consumer loans are written-off in the month after principal and/or interest payments become 360 days contractually in arrears. Credit card loans are written-off in the month after principal and/or interest payments become 180 days contractually in arrears.

Financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Recovery of previously written-off loans

Recoveries of principal and/or interest on previously written off loans are recognised in impairment losses on financial assets net in the Consolidated Statement of Profit or Loss and Other Comprehensive Income on a cash basis or when the loan is rewritten on normal terms prevailing at the time of the rewrite.

Renegotiated loans

Loans subject to impairment assessment, whose terms have been renegotiated, are subject to ongoing review to determine whether they remain impaired. The carrying amount of loans that have been classified as renegotiated retain this classification until maturity or derecognition. There was no material impact from modified loans during the years 2025 and 2024. If the terms of a financial asset are renegotiated or modified or an existing financial asset is replaced with a new one due to financial difficulties of the borrower, then an assessment is made of whether the financial asset should be derecognised and ECL are measured as follows:

- If the expected restructuring will not result in derecognition of the existing asset, then the expected cash flows arising from the modified financial asset are included in calculating the cash shortfalls from the existing asset.
- If the expected restructuring will result in derecognition of the existing asset, then the expected fair value of the new asset is treated as the final cash flow from the existing financial asset at the time of its derecognition. This amount is included in calculating the cash shortfalls from the existing financial asset that are discounted from the expected date of derecognition to the reporting date using the original effective interest rate of the existing financial asset.

(g) Impairment of non-financial assets

At each reporting date, management reviews the carrying amount of non-financial assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated to determine the extent of the impairment loss. The recoverable amount is the higher of fair value less costs to sell and value in use. An impairment loss is recognised as an expense immediately unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease to the extent that there is a revaluation surplus.

(h) Cash and cash equivalents

For the purposes of the Consolidated Statement of Cash Flows, cash and cash equivalents comprise cash on hand and unrestricted deposits with banks that have original maturities of three months or less from the date of acquisition that are subject to an insignificant change in their fair value, including cash with the Central Bank, and amounts due from banks. Cash and cash equivalents are carried at amortised costs on the Consolidated Statement of Financial Position.

(i) Investments, net

Investments in the Consolidated Statement of Financial Position include:

- debt investment securities measured at amortised cost less ECL. These are initially measured at fair value plus incremental direct transaction costs, and subsequently at their amortised cost using the effective interest method; and
- equity investment securities measured at FVTPL. These are measured at fair value with changes recognised immediately in the Consolidated Statement of Profit or Loss and Other Comprehensive Income.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

(j) Loans and advances to customers, net

Loans and advances to customers in the Consolidated Statement of Financial Position include loans and advances which are initially measured at fair value, and subsequently at their amortised cost using the effective interest method less ECL.

(k) Leases

Classification and measurement

The Group applies a single recognition and measurement approach for all leases, except for short-term leases (leases with terms of twelve months or less) and leases of low-value assets. Lease contracts are typically made for a fixed period with an extension option which is exercisable by the Group. A lease of low-value assets, on the other hand, is a lease for which an underlying asset is of low value (per the standard, with a value of \$5,000 or the equivalent for new similar assets).

Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.

The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group.

Short-term leases and leases of low value assets

The Group has elected not to recognise right of use assets and lease liabilities of assets that have a lease term of 12 months or less and leases of low-valued assets. The Group recognises the lease payment associated with leases as an expense on a straight-line basis over the lease term.

Initial measurement

1. Lease liabilities

Lease liabilities are initially measured as the present value (PV) of the lease payments not paid. The PV is determined by using the interest rate implicit in the lease. If that rate cannot be readily determined, the Group's incremental borrowing rate is used. This rate is defined as the rate of interest that the Group would have to pay to borrow over a similar term and with similar security to obtain an asset of a similar value to the right-to-use asset in a similar economic environment.

2. Right of use assets

Right of use assets are measured at cost comprising the following:

- The amount of the initial measurement of the lease liability;
- Any lease payments made at or before the commencement date less any incentives received;
- Any initial direct costs; and
- Restoration costs.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Subsequent Measurement

1. *Lease liabilities*

Lease payments are allocated between principal and finance costs. The finance cost is charged to the Consolidated Statement of Profit or Loss and Other Comprehensive Income over the lease period to produce a constant periodic rate of interest on the remaining balance of the liability for each period. Accordingly, the lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount by the lease payments made.

2. *Right of use assets*

Right of use assets are depreciated using the straight-line method over the shorter period of the lease term and the useful life of the underlying asset. The Group defines the lease term as the period of time in which a contractual lease is in place. The Group assesses whether there is an indication of impairment for the right-of-use asset in accordance with IAS 36, *Impairment of Assets*. In the event of impairment, a test is performed. Judgments applied by the Group in determining the measurement of its lease liabilities and right-of-use assets are disclosed in Note 11.

(l) Premises and equipment

Premises and equipment are carried at historical cost less accumulated depreciation and accumulated impairment losses. Historical cost includes expenditure that is directly attributable to the acquisition of an item. Subsequent costs are included in the asset's carrying amount or are recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All repairs and maintenance costs are charged to the Consolidated Statement of Profit or Loss and Other Comprehensive Income as a part of total profit during the financial period in which they are incurred.

Land is not depreciated.

Depreciation on other premises and equipment assets are computed on a straight-line basis, net of residual values, and are charged to profit or loss over their estimated useful lives as follows:

Site improvements - 5 – 10 years

Buildings - The shorter of the estimated useful life or a maximum of 40 years

Leasehold improvements - The shorter of the estimated useful life or the lease term

Furniture, fittings and equipment - 3 – 10 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

Gains or losses arising from the disposal or retirement of an item of premises and equipment are determined as the difference between the sales proceeds and the carrying amount of the asset. Such gains or losses are recognised in the Consolidated Statement of Profit or Loss and Other Comprehensive Income.

(m) Deposits from customers

Deposits from customers are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method. Deposits from customers are derecognised when the financial liability has been extinguished.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

(n) Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the Consolidated Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

Income and expenses are presented on a net basis only when permitted under IFRS Accounting Standards, or for gains and losses arising from a group of similar transactions.

(o) Recognition of income and expense

Interest income and interest expense

The Group recognises interest income and interest expense in the Consolidated Statement of Profit or Loss and Other Comprehensive Income for all financial instruments measured at amortised cost using the effective interest method described below, except for financial assets that have subsequently become credit-impaired ('Stage 3' financial assets). For these Stage 3 financial assets, interest income is calculated using the method for non-performing loans as described below.

Loan origination fees for loans are deferred (together with related direct costs) and recognised as an adjustment to the effective interest rate on the loans as they are an integral part of the loan. The adjustment to the effective interest rate has been determined by using the estimated terms of loans to maturity or repayment, if earlier.

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income and interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, where appropriate, a shorter period to the net carrying amount of the financial asset or liability. When calculating the effective interest rate, the Group estimates cash flows considering all contractual terms of the financial instrument (for example, prepayment options) but does not consider future credit losses. The calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

In accordance with local regulatory guidelines, a loan is classified as non-performing when payment is contractually 90 days in arrears, or the total amount outstanding outside of contractual arrangements is equal to at least 90 days' worth of payments. When a loan is classified as non-performing, recognition of interest ceases, and interest 90 days in arrears is reversed from income. Loans are generally returned to performing status when the timely collection of both principal and interest is reasonably assured and all delinquent principal and interest payments are brought current.

When a loan is granted forbearance, the contractual repayments of principal and interest are deferred until the end of the forbearance period. However, irrespective of the suspension of payment the recognition of interest continues during the forbearance period. The Bank continues to accrue interest to income on loans specifically assessed as non-performing and where the estimated net realizable value of the security held, where applicable, is sufficient to recover the payment of outstanding principal and accrued interest.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Fee income, other income, and expenses

Fee income comprises amounts earned from the ancillary services the Group provides primarily in connection with its offering of loans and advances to customers, and bank deposit services. Fees generated for services performed for the customer over a period of time are recognised over the service period on a straight-line basis. Other fees are recognised at a point in time when the Group satisfies its performance obligation, usually upon execution of the underlying transaction, which is generally at the time the customer's account is charged.

Credit life insurance premium income is recognised at the time a policy comes into effect. Premiums are shown net of refunds. The maximum term of any contract is 146 months. Premiums are assessed monthly and are calculated on the current balance of the associated loan. Such premiums are recognised when assessed.

Other income relates mainly to other service charges, rental income and foreign exchange. Service charges are recognised as the services are rendered. Rental income is recognised on a straight-line basis over the term of the lease. Insurance claims are recognised when incurred. Other expenses are recognised as the services are received.

(p) Foreign currency translation

Functional and presentation currency

Items included in the consolidated financial statements of the Group are measured using the currency of the primary economic environment in which the Group operates (the functional currency). The consolidated financial statements are presented in Bahamian dollars, which is the Group's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the rates of exchange prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Consolidated Statement of Profit or Loss and Other Comprehensive Income as a part of total profit. Translation differences on monetary financial assets measured at FVTPL are included as part of the fair value gains and losses.

(q) Dividends on common shares

Dividends on common shares are deemed declared and recognised as a deduction from equity in the period in which the dividends are approved by the Board and receive the applicable regulatory approvals.

(r) Basic earnings per common share

Earnings per share are computed by dividing the total profit by the weighted average number of common shares outstanding during the year and not held by Group companies.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

(s) Retirement benefit costs

The Bank maintains defined benefit (“DB Provisions”) and defined contribution (“DC Provisions”) pension plans (together referred to as “the plans”) covering all of its employees. Assets of the plans are administered by, and under the control of, independent trustees.

The Pension Committee is responsible for advising the Board of Directors in fulfilling its fiduciary and oversight duties for the Bank’s pension arrangements. As a part of this responsibility, members of the committee review the performance of the trustees, administrator and investment manager in accordance with the trust deed, plan rules and investment policy statement, as well as providing support and making recommendations, as appropriate. The Pension Committee comprises members of the Bank’s Board of Directors, one management employee and one non-management employee elected by the employees triennially.

The Bank’s contributions under the defined contribution pension plan are recognised as staff costs in general and administrative expenses.

The cost of providing benefits under the defined benefit plan is determined by using the projected unit credit method, with actuarial valuations being carried out at each reporting date. The defined benefit obligation is calculated annually by independent actuaries. The asset or liability amount recognised in the Consolidated Statement of Financial Position represents the present value of the defined benefit obligation and the current service cost at the end of the reporting period less the fair value of plan assets.

Pension costs under the DB Provisions include the present value of the current year service cost based on estimated final salaries, interest on obligations less interest on assets, and estimated administrative costs. Current service cost and net interest on the net defined benefit asset or liability are charged to general and administrative expenses.

Changes in the net defined benefit asset or liability recorded in other comprehensive income include actuarial gains and losses on obligations, and assets arising from experience different than assumed and changes in assumptions.

(t) Short-Term benefits

Short-Term Benefits are employee benefits to be settled wholly before twelve months after the end of the annual reporting period in which the employee renders the related services and is recorded as the services are rendered.

(u) Share-Based payments

Equity-settled share-based payments

The Bank issues equity-settled share-based payments to certain management staff. The Bank determines the fair value of stock options on their grant date using the Black Scholes Model and records this amount as compensation expense. The expected life used in the model has been adjusted, based on management’s best estimate, for the effects of non-transferability, exercise restrictions and behavioural considerations. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period. When the stock options are exercised the proceeds are recorded in share capital and share premium.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Other Stock-Based Compensation Plan

The Bank offers non-management staff the option of purchasing common shares at a 10% discount from the prevailing market rate at the time of the offer.

The amount of discount is recorded as compensation expense with a corresponding increase to share premium. Payments by staff for the shares are credited to share capital and share premium.

(v) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs. Ordinary shares, and preference shares whose terms do not create contractual obligations, are classified as equity.

Treasury shares

Treasury shares represents the Bank's issued shares that have been repurchased by the Bank. Treasury shares are deducted from equity and no gain or loss is recognised on the purchase, sale, issue or cancellation of treasury shares. Any premium or discount to par value is shown as an adjustment to share premium.

(w) Other items

1. Financial guarantees and loan commitments

Financial guarantee contracts require the Group to make payments to reimburse the holder for a loss it incurs if a debtor does not make a payment in accordance with the terms of the debt agreement. Financial guarantees are recognised in the Consolidated Statement of Financial Position at the higher of the fair value of the fees originally received less cumulative amortization recognised in the consolidated statement of profit or loss, and the expected credit loss, as documented below.

Loan commitments are undrawn firm commitments to provide credit under pre-specified terms and conditions. The nominal value of the financial guarantees and loan commitments are not recognised in the Consolidated Statement of Financial Position. Both financial guarantees and loan commitments are subject to an allowance for expected credit losses and subject to the same impairment considerations as documented in Note 2(f). Where a financial instrument includes both a drawn and an undrawn component, and the Group cannot identify the ECL on the loan commitment component separately from those on the drawn component, the Group presents a combined loss allowance for both components. The combined amount is presented as a deduction from the gross carrying amount of the drawn component. Any excess of the loss allowance over the gross amount of the drawn component is presented as a provision.

2. Related parties

A related party is a person or entity that is related to the reporting entity:

- i. A person or close member of that person's family is related to a reporting entity if the person:
 - a. has control or joint control of the Group
 - b. has significant influence over the Group;
 - c. is a close family member of an individual or those family members who may be expected to

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

- influence, or be influenced by, that individual in their dealings with the Group; or
- d. is a member of the Group's key management personnel, including directors.
 - ii. An entity is related to the Group if any of the following conditions exist:
 - a. An entity is a member of the Group;
 - b. An entity is associated with, or is a joint venture partner with the Group;
 - c. An entity is a post-employment benefit plan for the benefit of employees of the Group;
 - d. An entity can control or exercise significant influence over the Group in making financial or operational decisions; and
 - e. An entity is jointly controlled or significantly influenced by parties described in i) above.

A related party transaction is a transfer of resources, services or obligations between the Group and a related party.

Relationships, transactions and balances with related parties are disclosed in Note 19.

3. *Liability Provisions*

Provisions for restructuring costs and legal claims are recognised when the Group has a present legal or constructive obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation, and the amount has been reliably estimated.

4. *Taxation*

Life insurance premium tax is incurred by Laurentide at the rate of 3% of premiums written by the company, and recognised as an expense at the time that premiums are written and included in general and administrative expenses.

The Group is required to pay value-added tax at a rate of 10% on goods and services as prescribed by the Value Added Tax Act. The Group also pays business licence fees in accordance with the Business Licence Act, real property tax in accordance with the Real Property Tax Act and stamp duty.

There is no other income, capital gains or corporate taxes imposed. The Group's operations do not subject it to taxation in any other jurisdiction.

5. *Business Segments*

Operating segments are reported in a manner consistent with the internal reporting provided to the Executive Committee which is responsible for allocating resources to the reportable segments and assessing their performance. Income and expenses directly associated with each segment are included in determining operating segment performance. The Group has five operating segments which are organised based on the nature of the products and services provided by each segment.

- i. Retail banking – the provision of full-service personal banking including the acceptance of savings, fixed and demand deposits, providing consumer financing through loans, overdrafts and credit cards and mortgage financing on real estate and the sale of foreign exchange.
- ii. Credit life insurance – the provision of credit life insurance in respect of the Bank's borrowers through Laurentide.
- iii. Real estate holdings - ownership and management of real property which is rented to branches and departments of the Bank through C.B. Holding Co. Ltd.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

- iv. Investment holdings – holdings of investments in the Bank's common shares through C.B. Securities Ltd.
- v. Insurance agency operations – provision of insurance agency services to the Group's insurance company, its sole client through Laurentide Insurance Agency Limited.

The entities within the Group operate within the same geographical area. Non-Bahamian dollar assets and liabilities are not material and are therefore not allocated to business segments.

Inter-segment revenues are charged at competitive market prices. Inter-segment expenses are transferred at cost. All transactions between segments are eliminated on consolidation.

There are no other operations that constitute separate reportable segments. The segment operations are all financial, and principal revenues are derived from interest and fee income. No single customer contributed 10% or more of the Group's total income for the periods covered in the consolidated financial statements.

(x) Corresponding Figures

Where necessary, corresponding figures are adjusted to conform with changes in the presentation in the current year.

3. Critical Accounting Judgements and Key Sources of Estimation Uncertainty

The following are critical estimates and key judgments that management has made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the consolidated financial statements.

1. Impairment of financial assets

The impairment losses on financial assets represent management's estimate of ECL.

The measurement of the ECL allowance on financial assets is an area that requires the use of complex models and significant assumptions about the future economic conditions and credit behaviour (e.g. the likelihood of customers defaulting and the resulting losses).

ECL is defined as the weighted expected probable value of the discounted credit loss (on principal and interest) determined by evaluating a range of possible outcomes and future economic conditions. It represents the present value of the difference between the contractual cash flows and the expected cash flows.

The process for determining the allowance involves significant quantitative and qualitative assessments. Particularly, a number of significant judgments are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for a significant increase in credit risk;
- Choosing appropriate models and assumptions for the measurement of ECL;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated ECL;

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

- Assessing the risk rating and impaired status of loans;
- Determining the additional risk, if any, related to loans granted forbearance;
- Estimating cash flows and realisable collateral values;
- Developing default and loss rates based on historical data;
- Estimating the impact on historical data by changes in policies, processes and credit strategies;
- Assessing the current credit quality based on credit quality trends; and
- Determining the current position in the economic cycle.

The Group has developed an internal risk grade rating system, that indicates the credit risk on an individual basis for loans and advances to customers and investments carried at amortised cost. The internal risk grades consider a number of qualitative and quantitative factors, considering internal information and external circumstances impacting the borrower, or in the case of investments, of the issuer. The internal risk grades are a primary input into the determination of the probability of default for exposures.

IFRS Accounting Standard 9 requires the use of forward-looking information including reasonable and supportable forecasts of future economic conditions. The requirement to consider a range of economic scenarios and their possible impacts on impairment allowances is a subjective feature of the IFRS Accounting Standard 9 ECL model. The Group continues to develop its capability to model a number of economic scenarios and capture the impact on credit losses to ensure the overall ECL represents a reasonable distribution of economic outcomes.

In its ECL model, the Bank relies on a broad range of forward-looking information such as economic inputs, including:

- GDP growth of The Bahamas
- Unemployment rates of The Bahamas
- Inflation rates of The Bahamas

Limitations in the Bank's IFRS Accounting Standard 9 ECL model have previously been identified through the ongoing assessment and validation of the output of the model. In these circumstances, management makes appropriate adjustments to the Bank's allowance for impairment losses to ensure the overall provision adequately reflects all material risks. Refer to Note 22 for additional disclosures related such risks.

2. *Post-retirement benefit obligation*

The Bank maintains a defined benefit plan as outlined in Note 2(s). Due to the long-term nature of pension plans, the calculation of benefit expenses and obligations depends on various assumptions such as discount rates, expected rates of return on assets, projected salary increases, retirement age, mortality and termination rates. Any difference between the actual experiences and actuarial assumptions will affect the benefit obligation and expense.

The inputs, assumptions and estimation techniques used in measuring the defined benefit obligation are detailed in Note 20.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

3. *Classification of financial assets*

Management assesses the business models within which the financial assets are held. The assessment is made as to whether the contractual terms of a financial asset are solely payment of principal and interest (“SPPI”) on the principal amount outstanding.

The assessment considerations are detailed in Note 2(e).

4. *Fair value of financial instruments*

IFRS Accounting Standard 13 requires that the classification of financial instruments at fair value be determined by reference to the source of inputs used to derive the fair value. This classification uses the following three-level hierarchy:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2 - Valuation techniques based on observable inputs, either directly (i.e., as prices) or indirectly (i.e., derived from prices). This category includes instruments valued using quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3 - Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and unobservable inputs have a significant effect on the instrument’s valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

The Group recognises transfers between levels of the fair value hierarchy as of the end of the reporting period during which the change occurred.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm’s length transaction. The best evidence of fair value is quoted price in an active market. In most cases, the Group’s financial instruments are not typically traded on an open market, and therefore management applies judgment to determine their fair value.

Refer to Note 8 for more information about the classification of fair values.

The following methods and assumptions have been used in determining fair value:

- Cash and deposit with banks – The fair values of these financial instruments are assumed to approximate their carrying values due to their generally short-term nature or the repricing of interest rates on variable rate products.
- Investments – The estimated fair value of the Group’s investments was determined based on their market bid price values.
- Loans and advances to customers – The estimated fair value of loans and advances to customers was determined by valuing the receivables based on current market interest rates relative to the Group's

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

interest rates. The carrying values of these financial instruments approximates their fair values.

- Deposits from customers – The estimated fair value of deposits from customers was determined by valuing the deposits based on current market interest rates relative to the Group's interest rates. The fair values of deposits from customers approximate their carrying values.
- Other financial instruments – Due to their short-term maturity, the carrying values of these financial instruments approximate their fair values.

Since the calculation of fair value is based on management's estimates, which involve uncertainties, the actual fair value realised in a sale or immediate settlement of the instruments may differ from the estimated amount.

4. Subsidiaries

The Group has interests in the following entities:

<u>Name</u>	<u>Country of Incorporation</u>	<u>Shareholding</u>
Laurentide Insurance and Mortgage Company Limited (“Laurentide”)	Bahamas	100%
Laurentide Insurance Agency Limited	Bahamas	100%
C.B. Holding Co. Ltd.	Bahamas	100%
C.B. Securities Ltd.	Bahamas	100%

C.B. Securities Ltd.

During the financial year ended December 31, 2025, the Board of Directors approved the voluntary winding up of C.B. Securities Ltd. The decision to wind up the entity formed part of the Group's ongoing strategic review of its corporate structure and operations, with the objective of streamlining activities and enhancing operational efficiency across the Group.

C.B. Securities Ltd. ceased active operations on September 30, 2025, and a liquidator was appointed on February 26, 2026, in accordance with the applicable provisions of the Companies Act, 1992 of The Bahamas. The wind-up remains in progress as of December 31, 2025.

The assets and liabilities of the subsidiary have been measured in accordance with applicable IFRS. Based on management's assessment, the winding up of the subsidiary did not have a material impact on the Group's consolidated financial position, results of operations, or cash flows.

Laurentide

Effective January 1, 2025, Laurentide, in its stand-alone financial statements, transitioned from full IFRS Accounting Standards to IFRS for Small and Medium-sized Entities (“IFRS for SMEs”) having determined it meets the eligibility criteria for the application of the IFRS for SMEs Accounting Standards.

The entities within the Group operate within the same geographical area. Non-Bahamian dollar assets and liabilities which are not in the retail bank segment are not material and are therefore not allocated to business segments.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

7. Cash and deposits with bank

	2025	2024
Cash on hand	\$ 28,304	\$ 23,194
Demand deposits	21,964	11,308
Time deposits	40,039	38,245
Balances with The Central Bank of The Bahamas	<u>150,779</u>	<u>162,819</u>
Cash and deposits with banks	241,086	235,566
Minimum reserve requirement	(60,631)	(59,235)
Time deposits with original maturities greater than 3 months	<u>-</u>	<u>(38,245)</u>
Cash and cash equivalents	<u>\$ 180,455</u>	<u>\$ 138,086</u>

The minimum reserve requirement comprises deposits placed with the Central Bank to meet statutory requirements of the Bank's licenses and are not available for use in the Bank's day-to-day operations. As such, these amounts are excluded from balances held with the Central Bank to arrive at cash and cash equivalents. All balances with the Central Bank are non-interest bearing.

Time deposits with original maturities greater than 3 months are not deemed short-term liquid assets and are excluded to arrive at cash and cash equivalents. The time deposits are interest-bearing with a range of 4.28% - 4.45%.

The financial assets included in cash and cash equivalents are carried at amortised cost, which approximates the fair market value.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Investments, measured at amortised cost (net), categorised by maturity are as follows:

	2025	2024
Current (due in one year)	\$ 332,477	\$ 374,919
Non-current (due after one year)	405,814	373,139
	<u>\$ 738,291</u>	<u>\$ 748,058</u>

The table below shows the net carrying amount and fair value of investments.

	2025	
	Net Carrying Amount	Fair Value
Bahamas Government Bahamian dollar debt	\$ 536,210	\$ 538,056
Bahamas Government related-debt	17,345	17,555

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

The table below shows the fair value hierarchy of investments.

	2025			2024		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Bahamas Government Bahamian dollar debt	\$ -	\$538,057	\$ -	\$ -	\$588,105	\$ -
Bahamas Government related-debt	-	17,555	-	-	15,278	-
Bahamas Government United States dollar debt	121,624	-	-	91,484	-	-
Bahamas corporate debt	-	-	12,000	-	-	7,000
United States treasury bills	21,385	-	-	3,390	-	-
United States corporate debt	28,572	-	-	38,665	-	-
Equity investments	-	218	-	-	202	-

As of December 31, 2025, the majority of the Bank's investments in Bahamas Government debt comprised of Bahamas Government Registered Stock and Bahamas Government Treasury Bills.

Other investments include Bahamas Government-related debt such as securities issued by the Bahamas Mortgage Corporation, The University of The Bahamas, The Bridge Authority and The Clifton Heritage. There is not a very active market for these investments. Primary brokers of these Government-related debt trade similar instruments at par value.

9. Loans and Advances to Customers, net

Loans and advances to customers are as follows:

	2025	2024
Residential mortgage	\$ 169,895	\$ 166,897
Business	23,255	20,980
Personal	713,794	669,758
Credit card	50,356	42,929
Government	8,303	13,127
	<u>965,603</u>	<u>913,691</u>
Less: Allowance for ECL	<u>(40,362)</u>	<u>(38,480)</u>
Loans and advances to customers, net	<u>\$ 925,241</u>	<u>\$ 875,211</u>

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Loans and advances to customers categorised by maturity are as follows:

	2025	2024
Current (due within one year)	\$ 78,985	\$ 63,419
Non-current (due after one year)	<u>846,256</u>	<u>811,792</u>
	<u>\$ 925,241</u>	<u>\$ 875,211</u>

Included within the carrying amount of gross loans and advances to customers are accrued interest amounting to \$9.8 million (2024: \$10.2 million), and effective interest rate adjustments of \$10.2 million (2024: \$8.6 million), the latter principally comprising deferred fees and other direct costs incurred to originate loans.

The effective average interest rate yield earned for the year ended December 31, 2025, is 12.44% (2024: 12.16%). Interest rates on loans outstanding at December 31, 2025, and 2024 range from 1% - 18% per annum (2024: 2% - 18% per annum).

Loans and advances are classified as Level 3 financial instruments as their fair values have been estimated to be their net present value, inclusive of an unobservable risk-adjusted discount rate.

Movement in Allowance for ECL:

	2025				
	Balance at the Beginning of Year	Loans Written off	Recoveries	Impairment (Reversals) /Losses	Balance at the End of Year
Residential mortgage	\$ 5,821	\$ (946)	\$ -	\$ (199)	\$ 4,676
Business	1,430	(144)	-	344	1,630
Personal	30,007	(23,435)	25,254	600	32,426
Credit card	1,166	(799)	800	407	1,574
Government	56	-	-	-	56
Total	<u>\$ 38,480</u>	<u>\$ (25,324)</u>	<u>\$ 26,054</u>	<u>\$ 1,152</u>	<u>\$ 40,362</u>

	2024				
	Balance at the Beginning of Year	Loans Written off	Recoveries	Impairment (Reversals) /Losses	Balance at the End of Year
Residential mortgage	\$ 7,044	\$ (843)	\$ -	\$ (380)	\$ 5,821
Business	1,564	1	-	(135)	1,430
Personal	54,431	(25,184)	25,363	(24,603)	30,007
Credit card	1,351	(965)	1,194	(414)	1,166
Government	28	-	-	28	56
Total	<u>\$ 64,418</u>	<u>\$ (26,991)</u>	<u>\$ 26,557</u>	<u>\$ (25,504)</u>	<u>\$ 38,480</u>

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

10. Other Assets

The composition of other assets is as follows:

	2025	2024
Pension asset	\$ 6,238	\$ 7,248
Prepaid expenses	4,939	5,130
Accounts receivable	1,927	648
Other	2,370	2,485
	<u>\$ 15,474</u>	<u>\$ 15,511</u>

The pension asset comprises the net asset position of the defined benefit plan as disclosed in Note 20. The net pension asset is non-current. All other assets are mainly related to work-in-progress and are expected to be recovered within one year. Work-in-progress assets represent partially completed projects that have incurred costs but have not yet reached their final stage of completion.

11. Right of Use Assets and Lease Liabilities

The right of use assets are as follows:

	2025	2024
Opening net book value	\$ 130	\$ 645
Additions	1,922	-
Depreciation	<u>(452)</u>	<u>(515)</u>
Closing net book value	<u>\$ 1,600</u>	<u>\$ 130</u>
	2025	2024
Cost	\$ 2,567	\$ 2,346
Accumulated depreciation	<u>(967)</u>	<u>(2,216)</u>
Closing net book value	<u>\$ 1,600</u>	<u>\$ 130</u>

For the years ended December 31, 2025, and 2024, there were no direct costs incurred by the Bank upon entering a lease.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

The lease liabilities are as follows:

	2025	2024
Opening book value	\$ 165	\$ 700
Additions	1,922	-
Finance cost on lease liabilities	51	25
Repayment of lease liabilities	<u>(476)</u>	<u>(560)</u>
Closing book value	<u>\$ 1,662</u>	<u>\$ 165</u>
Of which is:		
Current lease liabilities	\$ 300	\$ 165
Non-current lease liabilities	<u>1,362</u>	<u>-</u>
	<u>\$ 1,662</u>	<u>\$ 165</u>

The incremental borrowing rate is 4.25% (2024: 4.25%) per annum.

12. Premises and Equipment

The movement of premises and equipment are as follows:

	Land/Site Improvements	Buildings	Leasehold Improvements	Furniture Fittings & Equipment	Total
Cost					
December 31, 2024	14,982	39,158	1,095	44,330	99,565
Additions	217	83	-	5,423	5,723
Disposals	-	-	-	(32)	(32)
December 31, 2025	<u>15,199</u>	<u>39,241</u>	<u>1,095</u>	<u>49,721</u>	<u>105,256</u>

Net Book Value					
December 31, 2025	<u>14,272</u>	<u>21,475</u>	<u>60</u>	<u>8,537</u>	<u>44,344</u>

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

	Land/Site Improvements	Buildings	Leasehold Improvements	Furniture Fittings & Equipment	Total
Cost					
December 31, 2023	14,982	39,158	1,095	43,648	98,883
Additions	-	-	-	875	875
Disposals	-	-	-	(193)	(193)
December 31, 2024	14,982	39,158	1,095	44,330	99,565
Accumulated Depreciation					
December 31, 2023	889	15,798	993	36,771	54,451
Depreciation	36	981	23	2,394	3,434
Disposal	-	-	-	(158)	(158)
December 31, 2024	925	16,779	1,016	39,007	57,727
Net Book Value					
December 31, 2024	14,057	22,379	79	5,323	41,838

The Net Book Value of the land for 2025 and 2024 is \$14,033,702.

13. Deposits from Customers

The composition of deposits from customers is as follows:

	2025	2024
Demand deposits	\$ 342,995	\$ 285,817
Savings accounts	629,818	579,196
Certificates of deposit	628,786	678,853
	<u>\$ 1,601,599</u>	<u>\$ 1,543,866</u>

Deposits from customers categorised by maturity are as follow:

	2025	2024
Current (due within one year)	\$ 1,200,656	\$ 1,086,051
Non-current (due after one year)	400,943	457,815
	<u>\$ 1,601,599</u>	<u>\$ 1,543,866</u>

Management has determined that the fair value of deposits from customers approximates their carrying values.

Included in deposits from customers is accrued interest payable to customers totaling \$51.4 million (2024: \$49.6 million).

Deposits carry fixed interest rates ranging from 0% to 6.25% (2024: 0:00% to 6.25%) per annum, but the fixed interest rates are determined based on market rates and can be adjusted at the respective maturities of the deposits based on changes in market rates. The weighted average interest rate incurred on deposits from customers as at December 31, 2025, was 0.96% (2024: 1.07%).

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

14. Other Liabilities

The composition of other liabilities is as follows:

	2025	2024
Accruals and accounts payable	\$ 2,888	\$ 10,483
Cashier's cheques outstanding	6,168	3,778
Employee related	962	5,430
Other	9,839	7,109
	<u>\$ 19,857</u>	<u>\$ 26,800</u>

Accruals and accounts payable and Cashier's cheques outstanding are expected to be settled within the next 12 months. The "other" category in the table above is comprised of insurance and taxes payable and other miscellaneous liabilities.

15. Share Capital

The table below presents information about the common shares which were authorised, issued, and fully paid during 2025 and 2024:

	2025	2024
Authorised:		
675,000,000 (2023: 675,000,000) shares of \$0.00667 per share	<u>\$ 4,500</u>	<u>\$ 4,500</u>
Issued and fully paid:		
290,646,001 (2024: 295,268,556) shares of \$0.00667 per share	\$ 1,938	\$ 1,968
Share premium	4,718	18,786
Less: Nil (2024: 4,283,166) shares held in treasury	-	(12,394)
Total	<u>\$ 6,656</u>	<u>\$ 8,360</u>
Share capital	\$ 1,938	\$ 1,940
Share premium	<u>4,718</u>	<u>6,420</u>
	<u>\$ 6,656</u>	<u>\$ 8,360</u>

The holders of common shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at shareholders' meetings of the Bank. All common shares rank equally with regard to the Bank's residual assets.

On September 24, 2025, and with approval from both the Board of Directors and the Central Bank of The Bahamas, the Bank retired 4,622,555 ordinary shares previously held as treasury stock. This reduced the total number of issued shares to 290,646,001 ordinary shares. Further details are disclosed in Note 19.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Dividends paid during the year are as follows:

	2025	2024
Quarterly dividends	\$ 0.12	\$ 0.12
	(\$0.03 per quarter)	(\$0.03 per quarter)
Extraordinary dividends		
April	0.02	
May	0.04	
November	0.05	0.04
	<u>\$ 0.23</u>	<u>\$ 0.16</u>

These payments totaled \$66.86 million (2024: \$46.61 million) in common share dividend payments.

16. Basic Earnings Per Share

	2025	2024
Total profit available to common shareholders	<u>\$ 67,109</u>	<u>\$ 85,902</u>
Weighted average number of common shares (in thousands)	<u>290,656</u>	<u>291,106</u>
Basic earnings per share (expressed in dollars)	<u>\$ 0.23</u>	<u>\$ 0.30</u>

17. Fees and Other Income

Fees and other income derived from contracts with customers are as follows:

	2025	2024
Loan and credit card fees, excluding commitment and origination fees	\$ 7,031	\$ 6,264
Credit life insurance premiums	6,461	5,843
Deposit account fees	8,120	8,023
Debit card fees	5,781	5,520
Foreign exchange	4,200	4,023
Merchant-acquiring service fees	3,471	2,219
Other	2,813	2,509
	<u>\$ 37,877</u>	<u>\$ 34,401</u>

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

18. General and Administrative Expenses

General and administrative expenses are as follows:

	2025	2024
Staff costs	\$ 47,346	\$ 48,715
Licenses and taxes	15,969	15,391
Professional and service fees	11,314	11,599
Occupancy	5,904	5,870
Advertising	1,876	1,646
Other	15,532	13,232
	<u>\$ 97,941</u>	<u>\$ 96,453</u>

Staff costs include pension costs of \$1.68 million (2024: \$1.72 million) which includes \$80,000 (2024: \$82,000 charge) relating to the DB Provisions (see Note 20). Occupancy includes rental costs for leased properties. Other general and administrative expenses comprise primarily of bank licensing fees, technology licensing fees and profession services fees.

External audit fees assessed on the Group during the year was \$583,853 (2024: \$596,280).

19. Related Parties Balances and Transactions

The following table shows balances and transactions with related parties not disclosed elsewhere in these consolidated financial statements:

	2025	2024
	Key Management Personnel	Key Management Personnel
	\$	\$
Balances as at December 31		
Loans and advances to customers	6,889	5,465
Deposits from customers	213,902	257,384
Transactions for the year-ended December 31		
Interest income	145	171
Interest expense	6,612	7,809
General and administrative expense	1,041	444
Commitments under revolving credit lines	2,799	853

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Amounts included in loans and advances to customers that relate to residential mortgages and business loans are secured. Amounts related to personal loans and credit cards are unsecured. Loans and advances to customers are granted at preferential interest rates which fall within the range disclosed in Note 9. Allowances for ECL in respect of these balances are not material. Deposits from customers are granted at preferential interest rates which fall within the range disclosed in Note 13. Additionally, General and administrative expenses include amounts incurred for services and support provided by related parties in the ordinary course of business. These may comprise management services, shared administrative functions, professional services, and other operating support. Transactions with related parties are conducted on normal commercial terms and conditions and are recognised in profit or loss within general and administrative expenses in the period in which the services are received. The net amount transacted by key management personnel (inflows and outflows of deposits) during the period is represented by the net movement in the year-end balances.

Compensation of Key Management Personnel

The remuneration of key management personnel, those persons having the authority and responsibility for planning, directing and controlling the activities of the Bank is as follows:

	2025	2024
Non-Executive - Directors		
Directors' fees	\$ 341	\$ 328
Other long-term benefits	<u>24</u>	<u>24</u>
	<u>\$ 365</u>	<u>\$ 352</u>
	2025	2024
Other key management personnel		
Short-term benefits	\$ 9,327	\$ 10,818
Post-employment benefits	387	361
Other-long term benefits	<u>215</u>	<u>210</u>
	<u>\$ 9,929</u>	<u>\$ 11,389</u>

Non-executive Directors were paid \$341,000 (2024: \$328,000) in aggregate for fees and directorship services.

In line with the policy approved by shareholders at the 2016 Annual General Meeting, each non-executive Director, on retirement, shall receive a payment in cash or common shares of the Bank at a prevailing market value equivalent to one-twelfth of the Director's annual fees for every year of continuous service as a non-executive Director, the Bank fully accrued for Directors' cumulative retirement benefits totaling \$414,000 through to December 31, 2025 (2024: \$390,000).

Purchases and Sales of Shares from and to Subsidiary

During the year, C.B. Securities Ltd. purchased ordinary shares of the Bank on the open market totaling 339,389 shares for \$1.7 million (2024: 541,838 shares for \$2.8 million). In accordance with IFRS, these shares were presented as treasury shares and deducted from total equity in the consolidated financial statements of the Group.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

During the year, the Bank purchased from C.B. Securities Ltd a total of 4,622,555 of its ordinary shares. The shares were subsequently retired in accordance with the provisions of the Companies Act, 1992 (as amended).

The retirement of these shares resulted in a reduction in issued share capital and treasury shares. Consistent with IFRS requirements, no gain or loss was recognized in the Consolidated Statement of Profit or Loss and Other Comprehensive Income on the purchase, sale, or cancellation of the Bank's own equity instruments. Following the retirement, the Bank's total number of issued and outstanding ordinary shares was reduced to 290,646,001.

20. Bank Pension Scheme

The pension plan consists of the DB Provisions and DC Provisions.

DB Provisions

The DB Provisions, which is closed to new members, provides pensions based on years of service, contributions and weighted average earnings at retirement. The Bank's funding policy is to make monthly contributions to the DB Provisions based on triennial valuations to assess the continued appropriateness of certain assumptions which drive the valuation of the Plan and to ensure that funding levels are consistent with internally developed targets. The Bank pays on demand to the DB Provisions such periodic contributions as may be required to meet the obligations of the DB Provisions.

All employees in active employment of the Bank who had at least 3 years of service or had reached the age of 25, and who met the eligibility requirements were eligible for the DB Provisions. After October 1, 2013, entry to the DB Provisions was closed to all new employees.

Assumptions applied to DB Provisions

Discount rate:

In accordance with IAS 19, the discount rate used is determined by reference to market yields at the end of the reporting period on high-quality local corporate bonds, or where there is no deep market in such bonds, by reference to market yields on long-term Bahamas Government bonds. Currencies and terms of bond yields used must be consistent with the currency and estimated term of the post-employment benefit obligations being discounted.

As at the reporting date, the discount rate assumption for the DB Provisions plan is 5.70% (2024: 5.85%).

Increases in pensionable earnings:

The DB Provisions sets the pension increase rate assumption in line with the expected general wage growth which is influenced by the inflation by which benefits are expected to increase in future years. Although influenced by the inflation rate, the DB Provision does not contractually state that increases will be in line with market inflation. The assumption for 2025 remained unchanged at 1% (2024: 1%).

Mortality:

The DB Provisions use the 1994 Uninsured Pensioners Mortality Table (UP-94) to determine the mortality rate of the plan members. The UP-94 mortality table was considered appropriate for expected mortality during 1994, however, the actual experience in the DB Provisions has proven too scarce to produce any credible experience. In instances where the actual experience is not credible, the use of UP-94 is generally accepted.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

The Bank has considered the impact of COVID-19 on the mortality assumption and has deemed it unnecessary to alter its long-term assumptions.

Rate of increase of future compensation:

The 'rate of increase in future compensation' assumption of 3.50% remains unchanged from the prior year.

Expenses:

The expense assumption used in the calculation of the DB Provisions is \$100,000 (2024: \$100,000). The assumption is based on the average amount of the investment and administrative expenses in the DB Provisions over the past several years.

The DB Provisions typically expose the Bank to the following actuarial risks:

- i. Investment risk: The DB Provisions comprises investments in Bahamian Government (and Government-related) securities and private securities. The present value of the DB Provisions liability is calculated using a discount rate of 5.70% (2024: 5.85%). If the return on assets is below the discount rate, it will create a deficit.
- ii. Interest risk: A decrease in the discount rate will increase the DB Provisions liability.
- iii. Longevity risk: The present value of the DB Provisions liability is calculated by reference to the best estimate of the mortality of participants both during and after their employment. An increase in the life expectancy of the DB Provisions participants will increase the DB Provisions' liability.
- iv. Salary risk: The present value of the DB Provisions liability is calculated by reference to the future salaries of participants. As such, an increase in the salary of the participants will increase the DB Provisions' liability.

These risks are managed whereby the investment and operating decisions are overseen by a Pension Committee, which meets quarterly. Members of the Pension Committee include certain members of the Board of Directors of the Group and employees of the Bank. The Pension Committee meets to review changes in the actuarial assumptions that may affect the interest rate risk, longevity risk and salary risk associated with the DB Provisions. The Pension Committee also meets to discuss the investment activities of DB Provisions. The investment portfolio of the DB Provisions primarily comprises equity and fixed-income securities. Fixed-income investments primarily comprise Bahamas Government bonds. The DP Provisions' asset-liability matching strategy, based on consideration of recommendations from the investment advisor, manages the tenor of fixed-income investments, cash flow from investments, and the allocation between fixed-income and equity instruments.

All equity securities have quoted prices in an active market. The investment advisor prepares a portfolio review quarterly, and the management by the Pension Committee includes a consideration of the investment portfolio's investment balances in relation to the expected future distribution of pension funds. The review also includes a retrospective review of the historical performance of each investment type within the portfolio.

An actuarial valuation of the DB Provisions was undertaken by Mercer (Canada) Limited, Toronto, Canada as at December 31, 2025.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

The following tables present information related to the Bank's DB Provisions, including amounts recorded in the Consolidated Statement of Financial Position and the components of defined benefit cost:

	2025	2024
Change in fair value of plan assets:		
Fair value of plan assets at beginning of year	\$ 33,123	\$ 32,544
Interest income	1,899	1,848
Actual return on plan assets	(630)	54
Administrative costs	(147)	(155)
Employer contributions	-	-
Participant contributions	72	77
Benefits paid	(1,779)	(1,245)
Withdrawals from plan	-	-

Discount rate	5.70%	5.85%
Rate of pension increases	1.00%	1.00%
Rate of increase in future compensation	3.50%	3.50%
	UP 1994	UP 1994
Mortality Table	Fully generational	Fully generational
Weighted-average assumptions to determine defined benefit cost:		
Discount rate	5.70%	5.85%
Rate of pension increases	1.00%	1.00%
Rate of increase in future compensation	3.50%	3.50%
	UP 1994	UP 1994
Mortality Table	Fully generational	Fully generational

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Actuarial assumption sensitivities:

The discount rate is sensitive to changes in market conditions arising during the reporting period.

The results of 25 basis points increase or decrease over the actuarial assumptions related to the discount rate, compensation and pension; and one-year increase in life expectancy used in the measurement of the defined benefit obligation and defined benefit expense are summarised in the table below:

2025				
	Discount			
	Rate	Compensation	Pension	Mortality
Pension obligation	\$ 743	\$ 120	\$ 682	\$ 625
Pension expense	\$ 64	\$ 8	\$ 47	\$ 42

The effect of assuming an increase of one-year in life expectancy would increase the benefit obligation by \$0.6 million (2024: \$0.6 million) and pension benefits expense by \$44,000 (2024: \$39,000).

2024				
	Discount			
	Rate	Compensation	Pension	Mortality
Pension obligation	\$ 735	\$ 108	\$ 622	\$ 565
Pension expense	\$ 68	\$ 7	\$ 44	\$ 41

The weighted average duration of the defined benefit obligation is 12 years (2024: 11.7 years).

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the year) has been applied when calculating the defined benefit asset recognised in the Consolidated Statement of Financial Position.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

The DB Plan owns shares of the Bank valued at \$5.93 million and \$7.06 million as of December 31, 2025, and 2024 respectively.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

The major categories of DB Provisions assets at December 31, 2025, are as follows:

	Fair Value of Plan Assets	
	2025	2024
Balance with banks	\$ 1,895	\$ 3,258
Equity instruments (by industry segments):		
Energy	3,695	3,452
Industrials	218	227
Consumer staples	190	196
Finance	9,625	10,345
Government bonds	10,146	10,345
Other debt instruments	4,827	3,534
Preferred equity	1,573	1,573
Mutual fund	86	104
Other assets	321	220
Liabilities	(38)	(131)
Fair value of plan assets	<u>\$ 32,538</u>	<u>\$ 33,123</u>

All equity securities are level 1 investments. All bonds are Level 2 investments.

Given that the DB Provisions is currently overfunded, the Bank did not make any contributions in 2025 and 2024 in respect of the DB Provisions.

DB Provisions funds held at the Bank and related interest expense are as follows:

	2025	2024
Deposit from Customers	<u>\$ 143</u>	<u>\$ 351</u>
Interest Expense	<u>\$ -</u>	<u>\$ -</u>

The remeasurement gain of defined benefit obligation included in other comprehensive income is as follows:

	2025	2024
Remeasurement of defined benefit obligation	<u>\$ (1,090)</u>	<u>\$ (300)</u>

DC Provisions

The DC Provisions requires a defined contribution be made by the Bank for plan members. Eligibility in the DC Provisions includes all employees in active employment of the Bank who have at least 1 year of service or have reached the age of 25, and who met the eligibility requirements of the DC Provisions on or after October 1, 2013, or were hired after September 1, 2013. Contributions to the DC Provisions started on November 1, 2013, for eligible employees. Contributions to the DC Provisions are deposited into the plan account of each employee and administered by the pension plan's investment manager. Employees may choose from three investment options, two of which are investment funds offered by the investment manager and the other being the CB Managed Fund.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

The amounts recognised as an expense under the DC Provisions are as follows:

	2025	2024
Pension Expense included in staff cost	\$ 1,882	\$ 1,788

The DC Provisions owns 171,889 (2024: 171,889) common shares of the Bank. These shares have a market value of \$0.7 million (2024: \$0.8 million) which represents 1.69% (2024: 2%) of the DC Provisions assets.

21. Commitments and Contingencies

To meet the financial needs of customers, the Bank enters into various irrevocable commitments. These consist of mortgage commitments, letters of credit and other undrawn commitments to lend. Letters of credit commit the Bank to make payments on behalf of customers in the event of a specific act. In addition, contingent liabilities arise because of litigation or similar unforeseen matters.

Loan commitments

In the ordinary course of business, the Bank had commitments as at the reporting date, as follows:

	2025	2024
Mortgage commitments	\$ 9,976	\$ 10,753
Commercial commitments	2,359	2,321
Personal loan commitments	760	-
Revolving credit lines	44,446	30,796
	<u>\$ 57,541</u>	<u>\$ 43,870</u>

Revolving credit lines are undrawn lending facilities that have been approved by the Bank to meet the requirements of customers. They are revocable at the Bank's discretion. The amount shown represents the maximum amount of additional credit that the Bank could be obligated to extend.

These financial instruments are subject to the Bank's standard credit policies and procedures.

Capital commitments

As at December 31, 2025, the Bank had capital commitments of \$0.2 million (2024: \$0.1 million). The capital commitments in both years were substantively related to certain long-term assets. These are non-financial assets intended for long-term use.

Letters of credit

The Bank has a standby letter of credit with PNC Bank for US\$6.4 million (2024: \$6.4 million).

Liability provisions

As at December 31, 2025, there were no legal matters involving the Group which required the maintenance of a provision.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

22. Risk Management

The Group's Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. The risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group's Audit and Risk Committee oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group's Audit and Risk Committee is assisted in its oversight role by the Group's Enterprise Risk Management function, which represents the second line of internal control defence; and the Internal Audit function, which represents the third line of internal control defence. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Group's Audit and Risk Committee.

The Group has exposures to the following risks: concentration risk, capital management risk, interest rate risk, credit risk, liquidity risk, currency, operational risk, off-balance sheet risk, and climate risk.

a. Concentration risk

Risk concentrations can arise through the Group's exposure to individual counterparties, groups of individual counterparties or related entities; geographical locations; industry sectors; specific products; or service providers. The Group is exposed to the potential loss in value when a significant source of concentration risk moves in an unfavourable direction.

The concentration of risks not specifically identified in other notes to these consolidated financial statements are as follows:

- *Geographical concentration* - The Group has a concentration of risk in respect of the geographical area, as its operations, deposit customers; and significant assets are domiciled within the Commonwealth of The Bahamas.
- *Currency concentration* - The Group has a concentration in respect of currency as its financial instruments are significantly denominated in a single currency, the Bahamian dollar. Its other significant currency exposure is to the United States dollar, which shows a history of being positively correlated to the Bahamian dollar.
- *Credit concentration* - The Group has a concentration of credit risk when a significant proportion of borrowers are engaged in similar sectorial activities, and have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political, or other conditions. A significant concentration of the Group's borrowers are employees of The Government of The Bahamas or its related entities; and large hotel properties operating within the tourism and leisure sectors of The Commonwealth of The Bahamas.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

- *Product concentration* – The Group categorises its loans and advances to customers into loan types including personal, business, residential, and government; and revolving loans of credit cards and overdrafts. The Group has a significant concentration of personal loans and advances to customers.
- *Liquidity concentration* – The Group has a concentration of liquidity risk in its reliance on a particular market to realise its liquid assets; and sources of funding for its lending activities. The concentration of liquidity may also arise in the contract terms of repayment for its financial assets and liabilities. A significant concentration of the Group’s investments is in financial instruments issued by the Government of The Bahamas or its related entities. Trading levels in the Commonwealth of The Bahamas, whether on BISX or over-the-counter markets, are generally low, and therefore, the ability of the Group to liquidate large positions may be difficult and prices received may be severely impacted. The Central Bank has created a secondary market for certain debt securities issued by the Government of The Bahamas, and prices currently being observed in this market and over-the-counter approximate the face values of such securities.

The Bank manages its concentration of risks through its internal risk management policies and procedures, specifically stated in, but not limited to, its business continuity and recovery planning strategies; its setting of prudent concentration limits and targets for business performance; and its periodic stress testing of its liquidity and capital contingency plans.

b. Capital management risk

The Group manages its capital to ensure that it has a strong capital base to support the development of its business. The capital maintained exceeds regulatory capital requirements. The Group maximises the return to shareholders through optimization of its debt and equity balance. The Group’s risk management structure promotes making sound business decisions by balancing risk and reward. It promotes revenue-generating activities that are consistent with the Group’s risk appetite, the Bank’s policies and the maximization of shareholder return.

The capital structure of the Bank consists of equity attributable to the common equity holders of the Bank, comprising issued share capital, share premium and retained earnings as disclosed in Note 15. The Board’s Executive Committee reviews the capital structure at least annually. As part of this review, the Executive Committee considers the cost of capital and the risks associated with each type of capital available to fund its business activities. Based on recommendations of the Executive Committee, the Bank manages its capital structure through the payment of dividends, new share issues, (common or preference) and the redemption of preference shares, as applicable.

As prescribed by the Guidelines for the Management of Capital and the Calculation of Capital Adequacy issued by the Central Bank, the Bank is required to maintain a capital adequacy ratio of at least 17% (2024: 17%), which is calculated by dividing the Bank’s total eligible capital by its total risk-weighted exposures. The Bank’s capital adequacy ratio for 2025 was 26% (2024: 32%). The Group’s capital is made up of Tier 1 capital only, which includes share capital and retained earnings.

Regulatory capital requirements for Laurentide and Laurentide Insurance Agency Limited are managed through the Bank. The Group’s strategy is unchanged from 2024.

Laurentide is licensed to conduct long term insurance business under The Insurance Act 2005 (the “Act”).

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Under paragraph 60(1)A of The Insurance (General) Regulations, 2010 (the “Regulations”) an insurance company is required to have a minimum paid-up and unencumbered share capital of not less than \$3 million. As at December 31, 2025, Laurentide has \$300,300 (2024: \$300,300) in share capital and \$2,750,000 (2024: \$2,750,000) in contributed surplus. Laurentide’s Board passed a resolution on December 6, 2011, making the contributed surplus non-distributable.

Laurentide is required to establish and maintain a minimum statutory deposit of \$2 million, such deposit to be held in trust under section 43(2) of the Act and paragraph 62 of the Regulations. The LIM (Laurentide Insurance Management) Statutory Reserve Trust was established on December 20, 2011, with assets valued at \$2,289,300 as at December 31, 2025 (2024: \$2,289,300).

During the year, the Group complied with all externally imposed capital requirements.

c. Interest rate risk

Interest rate risk is the potential for a negative impact on the Consolidated Statement of Financial Position and/or Consolidated Statement of Profit or Loss and Other Comprehensive Income arising from adverse changes in the value of financial instruments as a result of changes in interest rates.

Interest rate risk or interest rate sensitivity results primarily from differences in the repricing dates of assets and liabilities. Interest rate risk exposures or “gaps” may produce favorable or unfavorable effects on interest margins depending on the nature of the gap and the direction of interest rate movement and/or the expected volatility of those interest rates. When assets have a shorter average maturity than liabilities, an increase in interest rates would have a positive impact on net interest margins, and conversely, if more liabilities than assets mature or are repriced in a particular time interval then a negative impact on net interest margin would result.

The consolidated gap position shows more assets than liabilities repriced in periods greater than one year. This is a typical position for a financial institution with a large personal customer base.

The Group manages its interest rate sensitivity gaps primarily by matching the maturity and repricing terms of its assets and liabilities. The Bank’s interest-bearing financial liabilities, which are primarily its deposits to customers, are not linked to market interest rates, rather are set by management’s interest rate schedule and can be reset following the maturity of any customer deposit. The interest rate schedule is reviewed periodically by the Bank’s Asset-Liability Management Committee, and approved by the Board of Directors. The Bank’s loan portfolio is generally not linked to market rates, except for mortgage loans with variable interest rates linked to the Bahamian dollar prime rate and can be reset following the maturity or restructure of any mortgage loan. Loan product interest rates are set by management’s interest rate schedule. The interest rate schedule is reviewed periodically by the Bank’s Asset-Liability Management Committee, and approved by the Board of Directors. The Group’s investment portfolio is generally linked to market interest rates, and the Group does not attempt to hedge specifically against the impact of changes in market interest rates, as it manages by tactical allocation across instrument tenors and cash holdings. The Bank analyzes its interest rate exposure on a dynamic basis. Various scenarios are simulated taking into consideration changes in interest rates. Based on these scenarios, the Bank calculates the impact on profit and loss of a defined interest rate shift. The following table sets out the Group’s interest rate risk exposure as at December 31, 2025.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Interest Rate Sensitivity

If market interest rates increase/decrease by 50 basis points and all other variables remain constant, the Group's profit over the next 12 months is estimated to increase/decrease by \$149,000 (2024: \$313,000).

d. Credit risk

Credit and counterparty risk is the potential for loss due to the failure of a borrower, endorser, guarantor or counterparty to repay a loan or honour a financial obligation. This is the most significant measurable risk faced by the Group.

The Bank's credit policies are designed to maximise the risk/return trade-off. The Bank's credit policies, including authorised lending limits, are based on segregation of authority and centralised management approval with a periodic independent review by the Bank's Internal Audit department. Consumer credit is assessed and authorised within credit policies established by the Bank. Credit scoring systems are used to ensure that these policies are consistently applied across the Bank. A key factor in the Bank managing and constraining its credit risk exposure is the close review and follow up of its credit portfolios to quickly identify indications of potential failure to perform according to the terms of the contract and to take the appropriate steps to maintain or restore these accounts to performing according to the terms of the contracts.

The Group places its deposits with reputable financial institutions and considers factors of the financial institution such as reputation, longevity, market presence, market regulation, profitability and capital adequacy to gauge the institution's stability and ability to meet its financial obligations when considering deposit placements. Where available, external credit ratings are considered.

Expected Credit Loss Measurement

Expected credit loss is the discounted product of the probability of default ("PD"), loss given default ("LGD") and exposure at default ("EAD") parameters defined as follows:

- PD – The estimate of the likelihood of default over a given period.
- LGD – The estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, including discounted cash flows from any collateral. LGD is expressed as a percentage of the EAD.
- EAD – The estimate of the exposure at a future default date, taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest, and expected drawdowns on committed facilities.

Except where specifically indicated for a class of financial assets, the ECL method is applied consistently across loans and advances to customers, and investments.

For loans and advances to customers, excluding those exposures where the counterparty is the Government of The Bahamas, the Bank uses a Point-in-Time ("PIT") analysis while having regard to historical loss data forward-looking macro-economic data.

The lifetime PD of these exposures is developed by applying a maturity profile to the current 12-month PD. The maturity profile looks at how defaults develop on a portfolio from the point of initial recognition throughout the lifetime of the loan. PDs are then adjusted for IFRS 9 to incorporate forward-looking information. This is repeated for each economic scenario defined by the Bank.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

For exposures (including both loans and advances to customers, and investments) where the counter-party is the Government of The Bahamas, the Bank uses the historical 12-month PD and lifetime PD of the counter-party's credit rating published by credit rating agencies which are then adjusted for IFRS 9 to incorporate forward-looking information.

The table below shows the average lifetime PD for financial instruments in which ECL amounts are recognised.

	2025	2024
Residential mortgage	41%	44%
Business	24%	29%
Personal	26%	25%
Credit card	38%	35%
Government	2%	5%
Investments	5%	6%

Overdrafts are included in the average lifetime PD for credit cards.

The estimate of expected cash shortfalls reflects the cash flows expected from collateral and other credit enhancements that are part of the contractual terms and are not recognised separately by the Bank (e.g. properties collateralised for mortgage loans are not recognised on the Consolidated Statement of Financial Position).

Such estimates reflect the amount and timing of cash flows that are expected from foreclosure on the collateral less the costs of obtaining and selling the collateral, irrespective of whether foreclosure is probable.

Any cash flows that are expected from the realisation of the collateral beyond the contractual maturity of the contract are included in ECL modelling.

Where appropriate, the Bank considers the time to sell and the cost to sell. Further, "Forced Sale" discounts are also included to account for reductions in value due to forced sales and deterioration of collateral held.

In addition, the cost directly associated with realising collateral forms part of the ECL calculation. In the short term, this is set by the Bank's executive management and is based on their understanding of the market, the economic environment and the Group's experience. This is expressed as a discount factor (nominal value). The Bank also includes recovery cash flow assumptions in LGD which are discounted back to the point of default at the original effective interest rate.

As a pre-requisite for the approval of personal loans, the Bank requires that borrowers obtain credit life insurance coverage (the "insurance contract") from Laurentide or another third-party insurance provider (at the option of the borrower) to reduce the potential loss in the event of default in case of death by the borrower.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Insurance claims of \$2.5 million were recognised as loan write-offs during 2025 (2024: \$2.8 million).

For government loans and securities, the Group used its judgment in the assessment of a significant increase in risk and migration of balances to progressive stages. The assessment takes into consideration the risk rating of external agencies (i.e. Moody's Corporation ("Moody's")) and the economic environment of the country.

Internal Risk Ratings

Internal risk ratings are assigned according to the Group's risk management framework. Changes in internal risk ratings are primarily reflected in the PD parameters, which are estimated based on the Group's historical loss experience at the relevant risk segment or risk rating level, adjusted for forward-looking information.

Each credit facility is individually risk-rated (from 1 – being the lowest to 8 – being the highest) concerning its probable performance. Risk factors, which are based on the Group's current policy and procedures, are used to determine each loan's risk rating. These risk factors are assigned scoring based on a tiered approach with a higher score being assigned as risk factors increase. The factors and the range score assigned to them are then used to calculate a single risk rating. The risk factors considered include the days past due, loan type (collateralised vs non-collateralised), previous times past due, recency of payment, unused credit (for credit card accounts) and/or the ratio of the loan's value to the value of the collateral underlying the loan.

The Bank has a risk rating scale of 1 to 8, of which a risk rating of 1 presents the least risk whereas a risk rating of 8 presents the most risk. Loans with a risk rating of 1 are Stage 1 loans and loans with a risk rating of 8 are Stage 3 loans. Loans with any other risk rating are Stage 2 loans.

For corporate securities, credit reference agencies, press articles and changes in external credit ratings are considered when determining their internal risk rating.

Weighting of Expected Credit Loss

A multiple probability model has been adopted by the Group. The model was developed to allow scenario analysis and management overlay where deemed necessary (this applies to the weighting assigned to the estimates grouping). Three calculations for ECL estimates are generated representing base case, best case and worse case. Once an ECL calculation has been developed for each scenario, a weight is applied to each estimate based on the likelihood of occurrence to arrive at a final weighted ECL.

This includes significant judgments relating to:

- The selection and weighting of macro-economic scenarios;
- The effect of government and other support measures implemented to mitigate the negative economic impact;
- The assessment of the impact of the macro-economic scenarios on the ECL given the unavailability of historical information for a similar event;
- The identification and assessment of significant increases in credit risk and impairment especially for loan facilities where borrowers have received support under various government and bank support schemes; and

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

- The identification and assessment of significant increases in credit risk and impairment especially for exposures where the counterparty's credit rating has deteriorated significantly since initial recognition.

No material management overlays have been incorporated into the Bank's ECL.

The weighting assigned to each scenario as at December 31, 2025 and December 31, 2024, was as follows:

December 31, 2025 and December 31, 2024

	Base	Best	Worst
Residential	80%	5%	15%
Business	80%	5%	15%
Personal	80%	5%	15%
Revolving credit	80%	5%	15%
Government	80%	5%	15%
Bahamas Investments	80%	5%	15%
United States Investments	40%	30%	30%

Significant Increases in Credit Risk and Incorporation of forward-looking indicators

At each reporting date, the Group assesses whether there has been a significant increase in credit risk for exposures since initial recognition by comparing the risk of a default occurring over the remaining expected life from the reporting date and the date of initial recognition. The assessment considers borrower-specific quantitative and qualitative information together with the impact of forward-looking macroeconomic factors without considering collateral.

As noted in Note 3, the forward-looking information assessed includes the GDP growth of The Bahamas, the unemployment rates of The Bahamas and the inflation rates of The Bahamas, as noted within the *World Economic Outlook* published by the International Monetary Fund in April and October of each year.

The common assessment for significant increases in credit risk on loan portfolios normally includes macroeconomic outlook, management judgment, and delinquency and monitoring. Forward-looking macroeconomic factors are considered as part of the macroeconomic outlook. The importance and relevance of each specific macroeconomic factor depend on the type of product, characteristics of the financial instruments and the borrower.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

The ECL model may not always be able to capture all reasonable and supportable information that may indicate a significant increase in credit risk. Qualitative factors may be assessed to supplement the gap. Examples of this include changes in adjudication criteria for a particular group of borrowers, changes in portfolio composition and natural disasters impacting the portfolio. With regards to delinquency and monitoring, there is a rebuttable presumption that the credit risk of the financial instrument has increased since initial recognition when contractual payments are more than 30 days overdue.

Moody's credit rating for The Bahamas was last set at B1 with a positive outlook. In September of 2025 S&P Global Inc. ("S&P") upgraded its credit rating for the Bahamas from a rating of B+ to a rating of BB- with a stable outlook.

The credit ratings of B1 and BB- of Moody's and S&P respectively are both considered to be non-investment grade ratings. The aforementioned credit risk ratings are considered indicative of a SICR for certain exposures (including both loans and advances to customers, and investments) which originated or were acquired by the Bank before October 2022 (given that the latest downgrade of the Bahamas' credit rating occurred in October 2022 and resulted in SICR for certain investment holdings), and this has resulted in certain exposures being classified in stage 2 with a lifetime ECL being recognised.

Credit ratings are a primary input into the determination of the term structure of PD for exposures. The Group collects performance and default information and analyses the data collected to generate estimates of the remaining lifetime PD of exposures and how these are expected to change as a result of the passage of time.

The Group monitors the effectiveness of the criteria used to identify SICR by regular reviews to confirm that:

- the criteria can identify significant increases in credit risk before an exposure is in default;
- the criteria do not solely align with the point in time when an asset becomes 30 days past due; and
- the average time between the identification of a significant increase in credit risk and default appears reasonable.
- exposures are not generally transferred directly from 12-month ECL measurement to credit-impaired; and
- there is no unwarranted volatility in loss allowance from transfers between 12-month PD (Stage 1) and lifetime PD (Stage 2).

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Maximum Exposure to Credit Risk

For financial assets recognised on the Consolidated Statement of Financial Position, the exposure to credit risk generally equals their carrying amount. For standby letters of credit, the maximum exposure to credit risk is the maximum amount that the Bank would have to pay if the standby letters of credit are called upon.

For loan commitments and revolving credit lines that are irrevocable over the life of the respective facilities, the maximum exposure to credit risk is the full amount of the committed facilities. Refer to Note 21 for the amounts of the exposure as of December 31, 2025 and 2024.

The following tables contains an analysis of the credit risk exposure of financial assets for which an ECL allowance is recognised.

	2025

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Financial assets are past due when a counterparty has failed to make a payment when contractually due.

The average mortgage balance was \$119,410 (2024: \$119,555) while the average business account balance was \$229,973 (2024: \$219,197). The average consumer balance was \$24,278 (2024: \$23,697).

The largest exposure to a single loan customer, other than the Government of The Bahamas (Note 9), was approximately \$1.6 million (2024: \$1.7 million). Mortgage loans and business loans can extend up to 35 years and 10 years, respectively while consumer loans can extend up to 12 years.

Transfers between Stages

At each reporting date, the Group assesses whether the credit risk on its financial assets has increased significantly since initial recognition. The assessment of whether an asset is in Stage 1 or 2 considers the relative change in the probability of default occurring over the expected life of the instrument, and is not assessed based on the change in the amount of the expected credit losses. This involves setting quantitative tests combined with additional indicators such as credit risk classification and other observable inputs.

Transfers between Stages 1 and 2 are based on the assessment of significant increases in credit risk relative to initial recognition. The impact of moving from 12-month expected credit losses to lifetime expected credit losses, or vice versa, varies by portfolio and is dependent on the expected remaining life at the date of the transfer. Stage transfers may result in significant fluctuations in the Group's expected credit losses.

Movement in Allowance for ECL by Stage

The allowance for ECL recognised in the period is impacted by a variety of factors, including but not limited to:

- Transfers between Stage 1 and 2 or 3 due to financial assets experiencing significant increases (or decreases) in credit risk or becoming credit-impaired in the period, and the consequent "step up" (or "step down") between 12-month and lifetime ECL;
- Additional allowances for new financial assets recognised during the period, as well as releases for financials assets de-recognised in the period;
- Impact on the measurement of ECL due to changes in PDs, EADs, and LGDs in the period, arising from regular refreshing of inputs to the model;
- Impacts on the measurement of ECL due to changes made to models and assumptions;
- Financial assets de-recognised during the period and write-offs of allowances related to the assets that were written off during the period; and
- The number of days past due of a personal loan facility, as the LGD increases as the number of days past due increases.

The following tables explain the changes in the allowance for ECL by portfolio between the beginning and the end of the annual period due to these factors.

All financial assets outside of loans and advances to customers are neither past due nor impaired.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

The table below shows the distribution of loans and advances to customers that are neither past due nor impaired:

	2025	2024
Satisfactory risk	\$ 819,649	\$ 764,622
Watch list	<u>548</u>	<u>1,213</u>
	<u>820,197</u>	<u>765,835</u>

Watch list accounts are those that are exhibiting signs of distress or accounts that have been in distress in the past. Indications of distress include consistent arrears reflecting reduced income of the borrower, death of one of the parties to the loan, marital issues or divorce, illness, diminished business cash flows, etc.

Conversely, satisfactory accounts are accounts that are generally being serviced as agreed with no material indications that the borrower will default.

The analysis of the age of loans and advances to customers that were past due but not impaired is as follows:

	2025				
	Residential mortgage	Business	Personal	Credit card	Total
Past due up to 29 days	\$ 25,885	\$ 2,355	\$ 47,852	\$ 5,331	\$ 81,423
Past due 30 - 59 days	1,611	-	8,765	1,039	11,415
Past due 60 - 89 days	<u>595</u>	<u>-</u>	<u>6,735</u>	<u>95</u>	<u>7,425</u>
	<u>\$ 28,091</u>	<u>\$ 2,355</u>	<u>\$ 63,352</u>	<u>\$ 6,465</u>	<u>\$ 100,263</u>

	2024				
	Residential mortgage	Business	Personal	Credit card	Total
Past due up to 29 days	\$ 22,875	\$ 2,869	\$ 49,576	\$ 5,801	\$ 81,121
Past due 30 - 59 days	1,176	-	10,235	835	12,246
Past due 60 - 89 days	<u>798</u>	<u>-</u>	<u>6,468</u>	<u>397</u>	<u>7,663</u>
	<u>\$ 24,849</u>	<u>\$ 2,869</u>	<u>\$ 66,279</u>	<u>\$ 7,033</u>	<u>\$ 101,030</u>

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Restructured loans

Restructuring activity is designed to manage customer relationships, maximise collection opportunities and, if possible, avoid foreclosure or repossession. Such activities include extended payment arrangements, approved debt management plans, deferring foreclosure, modification, loan rewrites and/or deferral of payments pending a change in circumstances. Restructuring of consumer loans normally results in additional collateral, a co-signer or guarantor or a garnishee of salary being added to the loan. Following the restructuring, an overdue consumer account is normally reset from delinquent to current status. Restructuring policies and practices are based on indicators or criteria which, in the judgment of management, indicate that repayment will probably continue. These policies are continually reviewed and their application varies according to the nature of the market, the product, and the availability of empirical data. There was no material gain or loss recognised in 2025 or 2024 related to modified loans.

In the Group's current IFRS 9 ECL weighted risk rating model, restructured accounts attract a higher risk weighting than accounts that have not been restructured.

Collateral Relative to Loans and advances to customers

It is the Bank's policy to determine that, at the time of origination, loans are within the customer's capacity to repay, rather than to rely excessively on security. Loans classified as personal typically take into account the customer's standing and employment and credit histories and are generally unsecured. The Bank has guidelines as part of its credit policy on the acceptability of specific classes of collateral which are reviewed regularly.

The principal collateral types are as follows:

- **Personal** - garnishees over salary and chattel mortgages;
- **Residential mortgage** - mortgages over residential properties;
- **Commercial and industrial** - charges over business assets such as premises, stock, and debtors;
- **Commercial real estate** - charges over the properties being financed.

The Group closely monitors collateral held for financial assets considered credit-impaired, as it becomes more likely that the Group will take possession of the collateral to mitigate potential credit losses.

Financial assets that are credit-impaired and related collateral held to mitigate potential losses are shown below.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

	2025			
	Gross carrying amount	Allowance for ECL	Net Carrying amount	Value of collateral held
Residential mortgage	\$ 16,025	\$ 3,315	\$ 12,710	\$ 13,938
Business	3,305	1,629	1,676	1,084
Personal	25,562	14,142	11,420	-
Credit card	251	96	155	-
	<u>\$ 45,143</u>	<u>\$ 19,182</u>	<u>\$ 25,961</u>	<u>\$ 15,022</u>

	2024			
	Gross carrying amount	Allowance for ECL	Net Carrying amount	Value of collateral held
Residential mortgage	\$ 20,135	\$ 4,775	\$ 15,360	\$ 28,960
Business	3,502	1,430	\$ 2,072	2,187
Personal	22,869	11,928	\$ 10,941	42
Credit card	320	141	179	-
	<u>\$ 46,826</u>	<u>\$ 18,274</u>	<u>\$ 28,552</u>	<u>\$ 31,189</u>

The Group's policies regarding obtaining collateral have not changed during the reporting period. There has been no significant change in the overall quality of the collateral held by the Group since the prior period.

ECL sensitivity analysis

If the loss given default increases/decreases by 5% and all other variables remain constant, the Group's ECL is estimated to increase/decrease as noted below.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

	2025	2024
Residential mortgage	\$ 166	\$ 174
Business	12	48
Personal	2,753	2,543
Credit cards	18	15
Government	50	68
Investments	58	68
	<u>\$ 3,057</u>	<u>\$ 2,916</u>

e. Liquidity risk

Liquidity risk is the potential for loss if the Group is unable to meet financial commitments promptly at reasonable prices as they fall due. Financial commitments include liabilities to depositors and suppliers, and lending, pledging and investment commitments. Managing liquidity and funding risk is essential to maintaining both depositor confidence and stability in earnings.

The Group manages liquidity and funding risk by ensuring that sufficient liquid assets and funding capacity are available to meet financial commitments, even in times of stress. The Directors' Executive Committee oversees the Group's liquidity and funding risk management framework which includes operating within clearly defined Board limits, regulatory liquidity requirements and strong effective processes to monitor and manage risk, including contingency plans to facilitate managing through a distressing situation.

Included in deposits from customers are deposits totaling \$151.4 million (2024: \$169.5 million) from a single customer representing 9.70% (2024: 12.72%) of the total deposits from customers. The amounts are comprised primarily of certificates of deposits from a related party.

There have been no changes in the policies and procedures for managing liquidity risk compared to the prior year.

The following tables summarise the cash flows from financial instruments into maturity groupings, based on the remaining period to the contractual maturity dates. The cash flows presented are undiscounted.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Management of the Bank's short-term liquidity gap

In the normal course of business, the Group experiences a short-term liquidity gap, where the amounts it holds as deposits for customers may exceed its available liquid assets matching the same maturity. The Group manages this short-term liquidity gap by establishing a Liquidity Buffer of marketable securities with a long-term duration that can be liquidated or applied as collateral to meet unexpected payment obligations while continuing normal banking activities; and without obtaining new funding. The Group also monitors its liquid assets in relation to the demand and savings deposits from customers to ensure that the liquid assets are sufficient to fund withdrawals of demand and savings deposits. Liquidity risks related to certificates of deposits are managed with contractual limitations on the timing and amount of early withdrawals.

The Group also has access to inter-bank lending facilitated by The Central Bank of The Bahamas should additional liquidity be needed.

f. Currency risk

Currency risk is the risk that the fair values and/or amounts realised on settlement of financial instruments, and settlements of foreign currency transactions, will fluctuate due to changes in foreign exchange rates. Currency risk arises when future commercial transactions and recognised monetary assets and liabilities are denominated in currencies other than the Bank's functional currency. The Bank is not subject to significant currency risk as its foreign currency transactions and monetary assets and liabilities are predominately denominated in currencies with foreign exchange rates currently fixed against the Bank's functional currency.

g. Operational risk

Operational risk is the potential for loss resulting from inadequate or failed internal processes or systems, human error or external events not related to credit, market or liquidity risks. The Group manages this risk by maintaining a comprehensive system of internal control and internal audit, including organizational and procedural controls. The system of internal control includes written communication of the Group's policies and procedures governing corporate conduct and risk management; comprehensive business planning; effective segregation of duties; delegation of authority and personal accountability; careful selection and training of personnel and sound accounting policies, which are regularly updated. These controls and audits are designed to provide the Group with reasonable assurance that assets are safeguarded against unauthorised use or disposition, liabilities are recognised, and the Group is in compliance with all regulatory requirements.

h. Off balance sheet risk

In the normal course of business, and in order to meet the financing needs of its customers, the Group may enter into financial instruments with off balance sheet risk. These instruments can be classified into the commitments category. The Group mitigates the risks associated with such financial instruments by transacting only with creditworthy counterparties. As of December 31, 2025 and 2024, the Group's exposure to this risk was limited to letters of credit, guarantees, and loan commitments.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

i. Climate risk

The Group is committed to integrating climate-related and sustainability-related risk considerations into its strategic planning and risk management processes. By proactively addressing both physical and transition risks, as well as broader sustainability factors, the Group aims to enhance resilience and ensure long-term sustainability in the evolving economic and environmental landscape.

Governance and Oversight

The Group has integrated climate-related risk considerations into its existing governance framework in order to oversee climate and sustainability-related risks and opportunities. The Board of Directors and senior management are responsible for:

- Integrating sustainability risks into the overall enterprise risk management framework.
- Monitoring regulatory compliance and best practices for sustainability reporting.
- Setting strategic priorities for ESG and climate adaptation initiatives.
- Ensuring effective disclosure of sustainability-related financial information in accordance with IFRS S1.

Physical Risks

The Bahamas is highly vulnerable to climate change-related physical risks, including hurricanes, sea-level rise, and extreme weather events. The Group has assessed these risks and identified the following potential impacts:

- **Branch and Infrastructure Damage:** Increased frequency and intensity of hurricanes pose a significant threat to the Group's branch network and critical infrastructure, leading to potential business disruptions and increased operational costs for repairs and resilience measures.
- **Increased Credit Risk:** Clients operating in climate-sensitive sectors, such as tourism and real estate, may experience financial distress due to extreme weather events, leading to higher loan defaults.
- **Rising Insurance Costs:** Insurance premiums for properties and assets may increase due to heightened risk exposure, affecting both the Group and its customers.

The key risk mitigation strategies are as follows:

- Implementation of enhanced disaster recovery and business continuity planning;
- Increased investment in climate-resilient infrastructure for branch operations;
- Consideration of advanced risk modeling to assess potential credit risk exposure due to climate events; and
- Regular review of replacement cost insurance to assess its adequacy.

COMMONWEALTH BANK LIMITED

Notes to Consolidated Financial Statements

Year ended December 31, 2025, with corresponding figures as at and for the year ended December 31, 2024

(All amounts stated as actual amounts, except tabular amounts which are expressed in Bahamian \$000s)

Transition Risks

The Bahamas signed the Paris Agreement on Climate Change on April 22, 2016, at the United Nations. Accordingly, the regulatory landscape related to climate change is expected to evolve, including potential carbon pricing mechanisms and environmental policies, which may introduce compliance costs and impact investment strategies. Key risks include:

- Exposure to high-carbon sectors may lead to asset devaluation and increased credit risk.
- Compliance with emerging environmental regulations and disclosure requirements could lead to increased operational costs.
- Growing consumer and investor demand for environmentally sustainable banking products may require the Group to adapt its portfolio and financing strategies. Accordingly, failure to align climate-conscious practices could negatively impact the Group's reputation and investor confidence.

For risk mitigation, the Group actively monitors regulatory evolution related to climate change and engages regulatory authorities to promote proactive compliance with climate-related policies.

Financial Implications and Scenario Analysis

The Group is actively developing scenario analyses to assess the financial impact of climate and sustainability risks under various projections. Key elements include:

- **Stress Testing and Risk Quantification:** Utilizing climate risk stress testing to evaluate potential financial losses under different scenarios.
- **Capital Allocation Adjustments:** Reassessing portfolio diversification strategies to reduce exposure to high-risk sectors.
- **Enhancement of Risk Management Framework:** Strengthening climate and sustainability risk assessment methodologies to inform strategic decision-making.

Sustainability-Related Risks

In addition to climate-related risks, the Group acknowledges broader sustainability-related risks, including social and governance factors that could impact financial performance. The Group is committed to community engagement, financial inclusion, and fair lending practices. In addition, the Group's governance structure is modelled to promote ethical business conduct, anti-corruption measures, and transparent reporting practices. The Group also considers employee well-being, diversity and inclusion, and workforce resilience as critical to the success of its business footprint.

23. Subsequent events

The Group has declared a quarterly dividend for common shares, to all shareholders of record as of March 19, 2026, and paid the dividend in the amount of 4.5 cents per share, totaling \$13,079,070 on March 31, 2026.
