FOR IMMEDIATE RELEASE

Dr. Charles Diggiss to Transition from CEO Role of Doctors Hospital Health System While Continuing as President

Nassau, The Bahamas - December 23, 2025 - Doctors Hospital Health System (DHHS) announced today that Dr. Charles Diggiss will transition from his role as Chief Executive Officer effective February 1, 2026, while continuing to serve as President. His tenure as President & CEO has been defined by transformational growth, clinical excellence, and a steadfast commitment to accessible, high-quality healthcare.

"It has been an honor and a privilege to lead this extraordinary institution as President & CEO" said Dr. Diggiss. "Doctors Hospital Health System is widely respected for its clinical standards, patient-centered care, and dedication to developing the next generation of healthcare professionals."

Dr. Charles Diggiss began his medical career as a general surgeon and developed laparoscopy in general surgery at Doctors Hospital in the mid-1990s. Dr. Diggiss also developed the contracted Emergency Room physician services. Under his leadership, Doctors Hospital Health System (DHHS) evolved into one of the region's leading private tertiary healthcare systems, earning international accreditation for safety and quality. The organization achieved six consecutive Joint Commission International (JCI) accreditations and became the first hospital in the region to receive this distinction.

During his tenure, Doctors Hospital Health System expanded to include two hospitals and 13 primary and specialty care clinics, launched the LAMP affordable care program, and established a NAACOB-registered allied health training institution. His commitment to philanthropy, strengthening patient care and employee programs, became a defining hallmark of his leadership. Today, the health system employs more than 800 team members and affiliated physicians.

"Serving Doctors Hospital Health System has been the privilege of my lifetime," Dr. Diggiss said. "From my early days moonlighting at Doctors Hospital to cover nighttime patient needs in the early 1980s, to assuming the role of President and CEO in 2021, I have been inspired by our mission to provide exceptional care to every patient. I have a deep sense of gratitude for the confidence and trust that so many patients placed in me over the years. I am deeply grateful to our Board of Directors, leadership team, physicians, and associates, whose dedication made our success possible. I look forward to participating in this new role as Doctors Hospital Health System continues to advance healthcare delivery and improve lives."

The Board of Directors will announce Dr. Diggiss' successor as CEO imminently.

"Dr. Diggiss' vision and leadership have been instrumental in shaping Doctors Hospital Health System into the trusted institution it is today," said Felix Stubbs, Chairman of the Board of Directors. "We thank him for his extraordinary service."

About Doctors Hospital

Doctors Hospital Health System (DHHS), The Bahamas' leading private healthcare system, has been internationally accredited by Joint Commission International (JCI) since 2010. Founded in 1955 by Dr. Meyer Rassin, it was acquired by Bahamian physicians in 1986, renamed Doctors Hospital, and became publicly traded in 1999. Today, DHHS is a 94-bed, multi-site system with outpatient facilities in New Providence, Exuma, and Grand Bahama. The system offers advanced diagnostics, surgery, critical care, and a myriad of wellness programs. For more information, please visit <https://www.doctorshosp.com/>
