## INDEPENDENT AUDITORS' REPORT

To the Shareholders of  
FamGuard Corporation Limited:

We have audited the accompanying consolidated financial statements of FamGuard Corporation Limited (the "Company") and its subsidiaries (together, "the Group"), which comprise the consolidated statement of financial position as of December 31, 2010, and the consolidated statements of income, comprehensive income, changes in equity and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

### Management's responsibility for the consolidated financial statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Group as of December 31, 2010, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

*Deloitte & Touche*

April 26, 2011

## **APPOINTED ACTUARY'S REPORT**

### **To the Board of Directors and Shareholders of FamGuard Corporation Limited**

I have valued the actuarial liabilities and other policy liabilities of FamGuard Corporation Limited for its consolidated statement of financial position at 31 December 2010 and the change in the statement of income for the year ended 31 December 2010 in accordance with generally accepted actuarial practice including selection of appropriate assumptions and methods.

In my opinion, the amount of the actuarial and other policy liabilities makes appropriate provision for all policyholder obligations and the consolidated financial statements of FamGuard Corporation Limited fairly represent the results of the valuation.

Richard F. Labelle  
Fellow, Canadian Institute of Actuaries  
Fellow, Society of Actuaries

# **FAMGUARD CORPORATION LIMITED**

## **NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**YEAR ENDED DECEMBER 31, 2010**

*(Expressed in Bahamian dollars)*

---

### **1. GENERAL**

FamGuard Corporation Limited (the “Company”) is incorporated under the laws of the Commonwealth of The Bahamas and serves as an investment holding company with five wholly owned subsidiaries; Family Guardian Insurance Company Limited (FG), BahamaHealth Insurance Brokers and Benefit Consultants Limited, FG Insurance Agents & Brokers Limited, FG Financial Limited and FG Capital Markets Limited (together, “the Group”). FG is the principal operating unit and is licensed as an insurance company under the Insurance Companies Act, 1969. FG sells life and health insurance products in The Bahamas.

The registered office of the Company is located at the offices of E. Dawson Roberts & Co., Parliament and Shirley Streets, Nassau, Bahamas.

### **2. ADOPTION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS**

In the current year, the Group has adopted all of the new and revised Standards and Interpretations issued by the International Accounting Standards Board (the “IASB”) and the International Financial Reporting Interpretations Committee (the “IFRIC”) of the IASB that are relevant to its operations and effective for annual reporting periods beginning on January 1, 2010. The adoption of these standards is as follows:

- IFRS 2 Share-based Payment: Group Cash-settled Share-Based Payment Transactions effective January 1, 2010;
- IFRS 3 Business Combinations (Revised) and IAS 27 Consolidated and Separate Financial Statements (Amended) effective July 1, 2009 including consequential amendments to IFRS 7, IAS 21, IAS 28, IAS 31 and IAS 39;
- IAS 39 Financial Instruments: Recognition and Measurement - Eligible Hedged Items effective July 1, 2009;
- IFRIC 17 Distributions of Non-cash Assets to Owners effective July 1, 2009; and
- Improvements to IFRSs (April 2009), the effective date of each amendment is included in the IFRS affected.

Adoption of these revised standards and interpretations did not have any material effect on the financial performance or position of the Group. They did, however, give rise to additional disclosures in some occasions.

The principal effects of these changes are as follows:

- IFRS 3 Business Combinations (Revised) and IAS 27 Consolidated and Separate Financial Statements (Amended)
- IFRS 3 (Revised) introduces significant changes in the accounting for business combinations occurring after this date. Changes affect the valuation of non-controlling interest, the accounting for transactions costs, the initial recognition and subsequent measurement of a contingent consideration and business combinations achieved in stages. These changes will impact the amount of goodwill recognized, the reported results in the period that an acquisition occurs and future reported results.
- IAS 27 (Amended) requires that a change in the ownership interest of a subsidiary (without loss of control) is accounted for as a transaction with owners in their capacity as owners. Therefore, such transactions will no longer give rise to goodwill, nor will it give rise to a gain or loss. Furthermore, the amended standard changes the accounting for losses incurred by the subsidiary as well as the loss of control of a subsidiary. The changes by IFRS 3 (Revised) and IAS 27 (Amended) will affect future acquisitions or loss of control of subsidiaries and transactions with non-controlling interests.
- IFRS 2 Share-based Payment (Revised)

The IASB issued an amendment to IFRS 2 that clarified the scope and the accounting for group cash-settled share-based payment transactions. The Group adopted this amendment as of January 1, 2010. It does not have an impact on the financial position or performance of the Group.

- IAS 39 Financial Instruments: Recognition and Measurement - Eligible Hedged Items

The amendment clarifies that an entity is permitted to designate a portion of the fair value changes or cash flow variability of a financial instrument as a hedged item. This also covers the designation of inflation as a hedged risk or portion in particular situations. The Group has concluded that the amendment has no impact on the financial position or performance of the Group, as the Group has not entered into any such hedges.

### ***Standards Issued but not yet Effective***

Standards issued but not yet effective up to the date of issuance of the Group's financial statements are listed below. This listing is of standards and interpretations issued, which the Group reasonably expects to be applicable at a future date. The Group intends to adopt those standards when they become effective.

- **IAS 24 Related Party Disclosures (Amendment)**

The amended standard is effective for annual periods beginning on or after 1 January 2011. It clarified the definition of a related party to simplify the identification of such relationships and to eliminate inconsistencies in its application. The revised standard introduced a partial exemption of disclosure requirements for government-related entities. The Group does not expect any impact on its financial position or performance. Early adoption is permitted for either the partial exemption for government-related entities or for the entire standard.

- **IAS 32 Financial Instruments: Presentation - Classification of Rights Issues**

The amendment to IAS 32 is effective for annual periods beginning on or after 1 February 2010 and amended the definition of a financial liability in order to classify rights issues (and certain options or warrants) as equity instruments in cases where such rights are given pro rata to all of the existing owners of the same class of an entity's non-derivative equity instruments, or to acquire a fixed number of the entity's own equity instruments for a fixed amount in any currency. This amendment will have no impact on the Group after initial application.

- **IFRS 9 Financial Instruments: Classification and Measurement**

IFRS 9 as issued reflects the first phase of the Boards work on the replacement of IAS 39 and applies to classification and measurement of financial assets as defined in IAS 39. The standard is effective for annual periods beginning on or after 1 January 2013. In subsequent phases, the Board will address classification and measurement of financial liabilities, hedge accounting and derecognition. The completion of this project is expected in early 2011. The adoption of IFRS 9 will have an effect on the classification and measurement of the Group's financial assets. However, the Group determined that the effect shall be quantified in conjunction with the other phases when issued to present a comprehensive picture.

- **IFRIC 14 Prepayments of a minimum funding requirement (Amendment)**

The amendment to IFRIC 14 is effective for annual periods beginning on or after 1 January 2011 with retrospective application. The amendment provides guidance on assessing the recoverable amount of a net pension asset. The amendment permits an entity to treat the prepayment of a minimum funding requirement as an asset. The amendment is deemed to have no impact on the financial statements of the Group.

- IFRIC 19 Extinguishing Financial Liabilities with Equity Instruments

IFRIC 19 is effective for annual periods beginning on or after 1 July 2010. The interpretation clarifies that equity instruments issued to a creditor to extinguish a financial liability qualify as consideration paid. The equity instruments issued are measured at their fair value. In case this cannot be reliably measured, they are measured at the fair value of the liability extinguished. Any gain or loss is recognised immediately in profit or loss.

The adoption of this interpretation will have no effect on the financial statements of the Group.

### 3. SIGNIFICANT ACCOUNTING POLICIES

- Statement of compliance** - The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards and the interpretations adopted by the IASB.
- Basis of preparation** - The consolidated financial statements include the Company and its wholly-owned subsidiaries, and have been prepared under the historical cost convention, except for the revaluation of certain property, plant and equipment and financial instruments.

The preparation of consolidated financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements, are disclosed separately.

The accounting policies set out below have been applied consistently by the Group's entities.

- Basis of consolidation** - Subsidiaries are all entities over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The acquisition method of accounting is used to account for the acquisition of subsidiaries by the Group. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date, irrespective of the extent of any minority interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the consolidated statement of income.

Inter-company transactions, balances and unrealized gains and losses on transactions between the Group and its wholly-owned subsidiaries are eliminated.

- d. **Cash and cash equivalents** - For purposes of the consolidated cash flow statement, cash and cash equivalents consist of cash on hand, demand balances with banks and bank term deposits with original contractual maturities of three months or less.
- e. **Product classification** - Insurance contracts are defined as those containing significant insurance risk if, and only if, an insured event could cause an insurer to make significant additional payments in any scenario, excluding scenarios that lack commercial substance, at the inception of the contract. Such contracts remain insurance contracts until all rights and obligations are extinguished or expire. Contracts can be reclassified as insurance contracts after inception if insurance risk becomes significant. Any contracts not considered to be insurance contracts under IFRS are classified as investment contracts.
- f. **Reserves for insurance contracts** - The reserves for insurance contracts in force at the consolidated statement of financial position date are calculated according to principles determined by the Group's appointed actuary.

The Group calculates its liabilities for individual life insurance policies using the Canadian Policy Premium Method ("PPM"). The calculation of these policy reserves is based on assumptions as to future rates for mortality and morbidity, investment yields, policy lapse and expenses, which contain margins for adverse deviations.

Liabilities for deferred annuity policies are computed as the value of accrued invested funds. Reserves for immediate payment annuities are equal to the present value of future benefits.

Claims reserves for group health policies are estimated from incurred claims and the history of prior claim payments.

Liabilities for other short-term health policies renewable at the option of the Group comprise unearned premiums plus a contingency reserve for claims.

- g. **Property, plant and equipment** - Freehold land and buildings are shown at fair value, based on periodic, normally triennially, valuations by external independent appraisers, less accumulated depreciation for buildings. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset, and the net amount is adjusted to the revalued amount of the asset. All other property, plant and equipment is stated at historical cost less accumulated depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the assets.

Improvements which extend the useful lives or increase the value of assets are capitalized.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other costs are charged to the consolidated statement of income as repairs and maintenance during the financial period in which they are incurred.

Increases in the carrying amount arising on revaluation of freehold land and buildings are credited to the revaluation surplus account in equity. Decreases that offset previous increases of the same asset are charged against the revaluation reserve account directly in equity, all other decreases are charged to the consolidated statement of income.

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at each statement of financial position date.

An asset's carrying amount is written down immediately to its estimated recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Freehold land is not depreciated. Depreciation on other assets is calculated using the straight-line method to allocate their cost or revalued amounts over their estimated useful lives, as follows:

Freehold buildings	2.5% per annum
Furniture and equipment	10% - 20% per annum
Motor vehicles	25% per annum
Computer hardware and software	20% - 33% per annum
Leasehold improvements	shorter of period of the leases and estimated economic life of the improvements

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These are included in the consolidated statement of income. When revalued assets are sold, the amounts included in the revaluation surplus are transferred to retained earnings.

Construction in progress is stated at cost. Depreciation charges are deferred on construction in progress until project completion, at which time such assets are transferred to specific categories of property, plant and equipment.

#### **h. *Financial investment assets:***

The Group classifies its financial investment assets in the following categories; (i) held-to-maturity, (ii) available for sale and (iii) loans and receivables. The classification depends on the purpose for which the investment assets were acquired. Management determines the classification of its investment assets at initial recognition and re-evaluates this designation at every reporting date.

##### **(i) *Held-to-maturity***

Held-to-maturity financial assets are non-derivative assets with fixed or determinable payments and fixed maturities, other than those that meet the definition of loans and receivables, that the Group's management has the positive intention and ability to hold to maturity. Held-to-maturity financial assets are recorded at amortized cost using the effective interest method, less any impairment, with revenue recognized on an effective yield basis.

**(ii) Available for sale**

A financial investment asset is classified as financial assets available for sale if acquired principally for the purpose of selling in the long-term or if it does not meet the definition for any other category.

Regular-way purchases and sales of equities are recognized on trade date, which is the date that the Group commits to purchase or sell the equity. Investments in equities are initially recognized at cost and subsequently re-measured at fair value.

Fair value is determined by reference to quoted bid prices for ordinary shares. Investments are determined to have been sold when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. Unrealized gains and losses arising from changes in the fair value of the investments in equities category are presented in the consolidated statement of comprehensive income in the period in which they arise. Realized gains and losses arising from changes in the fair value of the investments in equities category are transferred from the consolidated statement of comprehensive income to the consolidated statement of income in the period in which they arise.

**(iii) Loans and receivables**

A financial investment asset is classified at amortized cost if it is a non-derivative financial asset with fixed or determinable payments that is not quoted in an active market, other than those that the Group intends to sell in the short-term.

Loans and receivables are carried at amortized cost, using the effective interest method less any provision for impairment in value.

A loan or receivable is impaired if its carrying amount is greater than its estimated recoverable amount. The amount of the impairment loss for loans and receivables carried at amortized cost is calculated as the difference between the carrying amount and the present value of expected future cash flows discounted at the financial instrument's original effective interest rate.

- i. **Loans** - Policy loans arise when the Group extends money to the policy holder. Policy loans and accrued interest are fully collateralized by the cash surrender value of the policy. Automatic premium loans arise under the terms of a life insurance contract should the premium become past due on the contract.

Policy loans and automatic premium loans are carried at the balance outstanding plus accrued interest. No provision for loss on these loans is deemed necessary by management because these loans are fully collateralized by the cash surrender value of the policies.

Mortgage and commercial loans are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Group provides money directly to a borrower with no intention of trading the receivable. Mortgage loans are secured by first mortgages and provide for monthly repayments at variable interest rates over periods of up to twenty-five years on residential loans and up to twenty years on commercial loans.

The Group revised its accounting estimate for loan provisions in 2009 and released its provision for inherent risk of 1% but maintained its specific provision on certain non-current loans. Mortgage and commercial loans are stated at the principal balance outstanding less specific provisions on certain non-current loans. Specific provisions are made on non-current loans for mortgages over three months in arrears, based on management's evaluation of the respective loans. A specific provision for non-current mortgage loans is established if there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the mortgage loan. Significant financial difficulties of the borrower, probability that the borrower will enter financial reorganization, and default or delinquency in payments are considered indicators that the mortgage loan is impaired. The amount of the specific provision for loans is the difference between the loan's carrying amount and the recoverable amount, being the present value of estimated future cash flows, including recoveries from guarantees and collateral, discounted at the effective interest rate at inception of the loan. The amount of the provision for loan loss is recognized in the consolidated statement of income. If the amount of the provision subsequently decreases due to an event occurring after the write-down, the release of the provision is recognized in the consolidated statement of income. Payments on loans past due are first applied to the interest outstanding. Accrued interest on non-current loans is excluded from interest income.

j. ***Foreign currency translation:***

- (i) ***Functional and presentation currency*** - Items included in the consolidated financial statements are measured using the currency of the primary economic environment in which the Group operates (functional currency), the Bahamian dollar. The consolidated financial statements are presented in Bahamian dollars, which is also the Group's presentation currency.
- (ii) ***Transactions and balances*** - Assets and liabilities denominated or accounted for in currencies other than the Bahamian dollar are translated into Bahamian dollars at the exchange rate prevailing at the consolidated statement of financial position date. Foreign currency transactions and income and expense items have been translated at the exchange rates prevailing at the date of the transaction. Gains or losses arising from transactions in foreign currencies are included in the consolidated statement of income.

- k. ***Impairment of assets*** - The Group assesses at each consolidated statement of financial position date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset is impaired if its carrying amount is greater than its estimated recoverable amount. The amount of the impairment, for assets carried at amortized cost is calculated as the difference between the assets carrying amount and the present value of expected future cash flows discounted at the financial instrument's original effective interest rate.

If in a subsequent period, the amount of the impairment decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment is decreased and the decrease is recognized in the consolidated statement of income.

- l. **Reinsurance transactions** - In the normal course of its life insurance business, the Group seeks to limit its exposure to loss on any single insured and to recover benefits paid, by ceding premiums to reinsurers under excess coverage contracts. Contracts entered into that meet the classification requirements for insurance contracts in Note 3u are classified as reinsurance contracts held. The Group retains a range of \$25,000 to \$150,000 (2009: \$25,000 to \$125,000) coverage per individual life.

The benefits to which the Group is entitled under reinsurance contracts held are recognized as reinsurance assets. These assets consist of short-term balances due from reinsurers and are classified within receivables and other assets. Amounts recoverable from or due to reinsurers are measured consistently with the amounts associated with the reinsured contracts and in accordance with the terms of each reinsurance contract. Reinsurance liabilities are primarily premiums payable for reinsurance contracts and are recognized as an expense when due.

Reinsurance payables are recorded in accounts payable and accruals in the consolidated statement of financial position.

- m. **Non-premium revenue and expense recognition** - Non-premium revenue and expenses are accounted for on the accrual basis. Interest income is recognized using the effective interest method. Dividend income is recorded when the right to receive payment is established.

Income which forms an integral part of the effective interest rate of a loan (i.e. commitment fees) is deferred and recognized as income over the life of the loan.

- n. **Leases** - Leases where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are recognized in the consolidated statement of income on a straight-line basis over the period of the lease.
- o. **Employee benefits - pension obligations** - The Group has a defined contribution pension plan for eligible agents and employees whereby the Group pays contributions to a pension plan separately administered by the Group. The Group has no further payment obligations once the contributions have been paid. The plan requires participants to contribute 5% of their gross earnings and commissions and the Group contributes 3.5% of eligible earnings. The Group's contributions to the defined contribution pension plan are recognized in the consolidated statement of income in the year to which they relate.

- p. ***Employee benefits - post retirement medical benefit*** - The Group determines the cost of providing benefits using the Projected Unit Credit Method, with actuarial valuations being carried out at the end of each reporting period. Actuarial gains and losses that exceed 10% of the greater of the present value of the Group's defined benefit obligation and the fair value of plan assets as at the end of the prior year are amortized over the expected average remaining working lives of the participating employees. Past service cost is recognized immediately to the extent that the benefits are already vested, and otherwise is amortized on a straight-line basis over the average period until the benefits become vested.

The retirement benefit obligation recognized in the statement of financial position represents the present value of the defined benefit obligation as adjusted for unrecognized actuarial gains and losses and unrecognized past service cost, and is reduced by the fair value of plan assets. Any asset resulting from this calculation is limited to unrecognized actuarial losses and past service cost, plus the present value of available refunds and reductions in future contributions to the plan.

- q. ***Share capital*** - Shares are classified as equity when there is no obligation to transfer cash or other assets.
- r. ***Earnings per share*** - Basic earnings per share is calculated by dividing net income available to ordinary shareholders by the weighted average number of ordinary shares in issue during the year, excluding the average number of ordinary shares purchased by the Group and held as treasury shares. There are no dilutive transactions that would have an impact to earnings per share.
- s. ***Dividend distribution*** - Dividend distribution to the Group's shareholders are recognized in the consolidated financial statements in the year in which the dividends are declared by the Board of Directors.
- t. ***Insurance contracts - classification*** - The Group issues contracts that transfer insurance risk or financial risk or both. Insurance contracts are those contracts that transfer significant insurance risk. Such contracts may also transfer financial risk. As a general guideline, the Group defines as significant insurance risk the possibility of having to pay benefits on the occurrence of an insured event that are least 10% more than the benefits payable if the insured event did not occur.

A number of insurance contracts contain a Discretionary Participation Feature (DPF). This feature entitles the holder to receive, as a supplement to guaranteed benefits, additional benefits or bonuses:

- that are likely to be a significant portion of the total contractual benefits;
- whose amount or timing is contractually at the discretion of the Group; and
- that are contractually based on:
  - (i) the performance or a specified pool of contracts or a specified type of contract; and
  - (ii) realized and/or unrealized investment returns on a specified pool of assets held by the Group.

The amount and timing of the distribution to individual contract holders is at the discretion of the Group, subject to the advice of the appointed actuary.

- u. ***Insurance contracts - recognition and measurement*** - Insurance contracts including those with DPF are classified into four main categories, depending on the duration of risk and whether or not the terms and conditions are fixed.

#### ***Short-term insurance contracts***

These contracts are group and individual health and hospitalization contracts, and short-duration life insurance contracts. These contracts protect policyholders from the consequences of events (such as death, disability or sickness) that would affect the ability of the policyholder or his/her dependents to maintain their current level income. Guaranteed benefits paid on occurrence of the specified insurance event are either fixed or are linked to the extent of the economic loss suffered by the policyholder. There are no maturity or surrender benefits.

Claims and loss adjustment expenses are recognized in the consolidated statement of income as incurred based on the estimated liability for compensation owed to policyholders. They include direct and indirect claims settlement costs and arise from events that have occurred up to the consolidated statement of financial position date even if they have not yet been reported to the Group. Liabilities for unpaid claims are estimated using the input of assessments for individual cases reported to the Group and statistical analyses for the claims incurred but not reported.

#### ***Long-term insurance contracts with fixed and guaranteed terms***

These contracts insure events associated with human life (for example death, or survival) over a long duration. Premiums are recognized as revenue when they become payable by the policyholder. Premiums are shown before deduction of commission.

Benefits payable to beneficiaries are recorded as an expense when they are incurred.

A liability for contractual benefits that are expected to be incurred is recorded when the premiums are recognized. The liability is based on assumptions as to mortality, persistency, maintenance expenses and investment income. A margin for adverse deviations is included in the assumptions.

#### ***Long-term insurance contracts without fixed and guaranteed terms***

These contracts insure events associated with human life (for example death, or survival) over a long duration. Premiums are recognized as revenue when they become payable. These liabilities however, are increased by credited interest (in the case of universal life contracts) or change in the unit prices (in the case of unit-linked contracts) and are decreased by policy administration fees, mortality and surrender charges and any withdrawals. Premiums are shown before deduction of commission.

Liabilities for universal life policies, including unit-linked contracts, are based on assumptions as to future mortality, persistency, maintenance expenses, investment income, and crediting interest rates. A margin for adverse deviations is included in the assumptions.

Liabilities for deferred annuities are set equal to the policyholder account values.

### ***Long-term insurance contracts with fixed and guaranteed terms and with DPF***

These contracts insure events associated with human life (for example death, or survival) over a long duration. Premiums are recognized as revenue when they become payable by the policyholder. Premiums are shown before deduction of commission.

Benefits payable to beneficiaries are recorded as an expense when they are incurred.

A liability for contractual benefits that are expected to be incurred is recorded when the premiums are recognized. The liability is based on assumptions as to mortality, persistency, maintenance expenses and investment income. A margin for adverse deviations is included in the assumptions.

In addition, these contracts also participate in the profits of the Group. As the Group declares the bonus to be paid, it is credited to the individual policyholders.

- v. ***Other provisions*** - Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation of the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

- w. ***Related parties*** - Related parties are defined as follows:

(i) Controlling shareholders; (ii) Subsidiaries; (iii) Associates; (iv) Individuals owning, directly or indirectly, an interest in the voting power that gives them significant influence over the enterprise, i.e. normally more than 20% of shares (plus close family members of such individuals); (v) Key management personnel - persons who have authority for planning, directing and controlling the enterprise (plus close family members of such individuals); (vi) Directors and (vii) Enterprises owned by the individuals described in (iv) and (v).

- x. ***Segments*** - For the purposes of segment reporting, the products and services provided by the Group are subject to similar risks and returns. There are no distinguishable geographical segments, as the geographical areas in which the Group operates are considered to be of similar economic and political conditions and subject to the same risks and returns. Direct expenses are recognized directly by the segment. General and administrative expenses are allocated mainly by square footage of office space used or head count depending on the nature of the expense.

#### 4. CRITICAL ACCOUNTING JUDGMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

*Critical judgments in applying the Group's accounting policies* - In the process of applying the Group's accounting policies, which are described above, judgments made by management that have the most significant effect on the amounts recognized in the consolidated financial statements are discussed in the relevant notes below.

*Key sources of estimation uncertainty - critical accounting estimates* - The preparation of consolidated financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as the disclosure of contingent assets and liabilities, at the date of the consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Certain amounts included in or affecting the Group's financial statements and related disclosure must be estimated, requiring the Group to make assumptions with respect to values or conditions which cannot be known with certainty at the time the consolidated financial statements are prepared. A "critical accounting estimate" is one which is both important to the portrayal of the Group's financial condition and requires management's most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. The Group evaluates such estimates on an ongoing basis, based upon historical results and experience, consultation with experts, trends and other methods considered reasonable in the particular circumstances, as well as the forecasts as to how these might change in the future.

a. *Estimate of future payments and premiums arising from long-term insurance contracts.*

The determination of the liabilities under long-term insurance contracts is dependent on estimates made by the Group. Estimates are made as to the expected number of deaths for each of the years in which the Group is exposed to risk. The Group bases these estimates on mortality tables that reflect recent historical mortality experience, adjusted where appropriate to reflect the Group's own experience. For contracts that insure the risk of longevity, appropriate but not excessively prudent allowance is made for expected mortality improvements. The estimated number of deaths determines the value of the benefit payments and the value of the valuation premiums. The main source of uncertainty is that epidemics such as AIDS, and wide-ranging lifestyle changes, such as in eating, smoking and exercise habits, could result in future mortality being significantly worse than in the past for the age groups in which the Group has significant exposure to mortality risk. However, continuing improvements in medical care and social conditions could result in improvements in longevity in excess of those allowed for in the estimates used to determine the liability for contracts where the Group is exposed to longevity risk.

b. ***Impairment***

The Group has made significant investments in tangible assets. These assets and investments are tested for impairment when circumstances indicate there may be potential impairment. Factors considered important which could trigger an impairment review include the following: significant fall in market values; significant underperformance relative to historical or projected future operating results; significant changes in the use of the assets or the strategy for the overall business, including assets that are decided to be phased out or replaced and assets that are damaged or taken out of use; significant negative industry or economic trends; and significant cost overruns in the development of assets.

Estimating recoverable amounts of assets must in part be based on management evaluations, including estimates of future performance, revenue generating capacity of the assets, assumptions of the future market conditions and the success in marketing of new products and services. Changes in circumstances and in management's evaluations and assumptions may give rise to impairment losses in the relevant periods.

c. ***Depreciation and amortization***

Depreciation and amortization is based on management estimates of the future useful life of property, plant and equipment and on the revaluation analysis performed triennially. Estimates may change due to technological developments, competition, changes in market conditions, the revaluation analysis and other factors and may result in changes in the estimated useful life and in the amortization or depreciation charges. The Group reviews the future useful life of property, plant and equipment periodically, taking into consideration the factors mentioned above and all other important factors. Estimated useful life for similar type of assets may vary between different entities in the Group due to local factors such as growth rate, maturity of the market, history and expectations for replacements or transfer of assets, climate, etc. In the case of significant changes in the estimated useful lives, depreciation and amortization charges are adjusted prospectively.

d. ***Legal proceedings, claims and regulatory discussions***

The Group is subject to various legal proceedings, claims and regulatory discussions, the outcomes of which are subject to significant uncertainty. The Group evaluates, among other factors, the degree of probability of an unfavorable outcome and the ability to make a reasonable estimate of the amount of loss. Unanticipated events or changes in these factors may require the Group to increase or decrease the amount the Group has accrued for any matter, or accrue for a matter that has not been previously accrued because it was not considered probable, or a reasonable estimate could not be made.

e. ***Loan loss provision***

To cover any shortfalls from mortgage loans, the Group records specific provisions on non-current loans, based on the assessed value of the underlying collateral.

f. ***Held-to-maturity financial investment assets*** - Management have reviewed the Group's held-to-maturity financial investment assets in the light of its capital maintenance and liquidity requirements and have confirmed the Group's positive intention and ability to hold those assets to maturity.

## 5. MANAGEMENT OF INSURANCE AND FINANCIAL RISK

The Group issues contracts that transfer insurance risk or financial risk or both. The Group's activities expose it to a variety of financial risks, including the effects of changes in equity market prices and interest rates. The Group's overall risk management approach focuses on the unpredictability of insured events and financial markets and seeks to minimize potential adverse effects on the financial performance of the Group.

### a. *Fair value of financial assets and liabilities*

The fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Underlying the definition of fair value is the presumption that the Group is a going concern without any intention or need to liquidate, curtail materially the scale of its operations or undertake a transaction on adverse terms.

In the opinion of the management, the estimated fair value of financial assets and financial liabilities (cash and bank balances, premiums receivable, receivables and other assets and accounts payable and accrued liabilities) at the statement of financial position date were not materially different from their carrying values due to their short term nature.

		2010				
		Loans and Receivables	Held-To- Maturity	Available- For Sale	Amortised Cost	Total
FINANCIAL ASSETS						
Financial investment assets	\$	74,785,118	\$60,490,125	\$ 6,474,103	\$ -	\$ 141,749,346
		2009				
		Loans and Receivables	Held-To- Maturity	Available- For Sale	Amortised Cost	Total
FINANCIAL ASSETS						
Financial investment assets	\$	73,316,316	\$58,590,478	\$ 6,613,077	\$ -	\$ 138,519,871

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into levels 1 to 3 based on the degree to which the fair value is observable.

Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 fair value measurements are those derived from inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

<b>2010</b>				
	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
<b>FINANCIAL ASSETS</b>				
Available For Sale				
Financial investment assets	\$ 6,326,537	\$ 147,566	\$ -	\$ 6,474,103
	<u>\$ 6,326,537</u>	<u>\$ 147,566</u>	<u>\$ -</u>	<u>\$ 6,474,103</u>

<b>2009</b>				
	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total</b>
<b>FINANCIAL ASSETS</b>				
Available For Sale				
Financial investment assets	\$ 6,443,996	\$ 169,081	\$ -	\$ 6,613,077
	<u>\$ 6,443,996</u>	<u>\$ 169,081</u>	<u>\$ -</u>	<u>\$ 6,613,077</u>

b. ***Insurance risk***

The risk under any one insurance contract is the possibility that the insured event occurs and the uncertainty of the amount of the resulting claim. By the very nature of an insurance contract this risk is random and therefore unpredictable.

For a portfolio of insurance contracts where the theory of probability is applied to pricing and provisioning, the principal risk that the Group faces under insurance contracts is that the actual claims and benefit payments exceed the carrying amount of the insurance liabilities. This could occur because the frequency or severity of claims and benefits are greater than expected. Insurance events are random and the actual number and amounts of claims and benefits will vary from year to year from the estimate established via statistical techniques.

Experience shows that the larger the portfolio of similar insurance contracts, the smaller the relative variability about the expected outcome will be. In addition, a more diversified portfolio is less likely to be affected across the board by a change in any subset of the portfolio.

The Group retains a range of \$25,000 to \$150,000 (2009: \$25,000 to \$125,000) coverage per individual.

### *Long-term insurance contracts*

For contracts where death is the insured risk, the most significant factors that could increase the overall frequency and severity of claims are epidemics, such as AIDS, and wide ranging lifestyle changes, such as in eating, smoking and exercise habits resulting in earlier or more claims than expected.

The Group manages these risks through its underwriting strategy and reinsurance arrangements. The underwriting strategy is intended to ensure that the risks underwritten are well diversified in terms of type and level of insured benefits. The Group's underwriting strategy includes medical selection with benefits limited to reflect the health condition of applicants and retention limits on any single life insured.

The table below indicates the concentration of insured benefits across four bands of insured benefits per individual life insured.

\$	2010	2009
0 - 9,999	\$ 119,250,697	\$ 114,085,006
10,000 - 24,999	305,443,533	279,375,711
25,000 - 49,999	119,098,960	114,264,527
50,000 and over	<u>1,085,124,608</u>	<u>1,035,708,746</u>
	<u>\$1,628,917,798</u>	<u>\$1,543,433,990</u>

### *Short-term insurance contracts*

The following table shows the estimate of claims by calendar year, net of reinsurance. Data is shown for eight years, because that is all the data that is reliably available. The top half of the table shows how the estimate of total incurred claims for each calendar year varies based on when the estimate is made. Generally, the estimate becomes closer to the final reality in each subsequent year, as a smaller percentage of claims remain unpaid. The lower portion of the table reconciles the current estimate of incurred claims (less those claims already paid) with the amount appearing in the statement of financial position on December 31, 2010. (All amounts are in \$000).

	Year claim is incurred								
	2003	2004	2005	2006	2007	2008	2009	2010	Total
Estimate of ultimate claims									
End of year incurred	<u>\$ 9,344</u>	<u>\$ 9,940</u>	<u>\$ 11,781</u>	<u>\$ 15,372</u>	<u>\$ 16,632</u>	<u>\$ 24,044</u>	<u>\$ 36,431</u>	<u>\$ 37,425</u>	<u>\$ 160,969</u>
One year later	<u>\$ 9,083</u>	<u>\$ 9,953</u>	<u>\$ 12,807</u>	<u>\$ 14,497</u>	<u>\$ 15,767</u>	<u>\$ 23,552</u>	<u>\$ 35,196</u>		
Two years later	<u>\$ 9,092</u>	<u>\$ 9,957</u>	<u>\$ 12,830</u>	<u>\$ 14,521</u>	<u>\$ 15,703</u>	<u>\$ 22,693</u>			
Three years later	<u>\$ 9,091</u>	<u>\$ 9,956</u>	<u>\$ 12,839</u>	<u>\$ 14,516</u>	<u>\$ 15,119</u>				
Four years later	<u>\$ 9,091</u>	<u>\$ 9,956</u>	<u>\$ 12,836</u>	<u>\$ 13,982</u>					
Current (December 31, 2010) estimate of ultimate claims	\$ 8,758	\$ 9,591	\$ 12,366	\$ 13,982	\$ 15,119	\$ 22,693	\$ 35,196	\$ 37,425	\$ 155,130
Cumulative payments (through December 31, 2010)	<u>8,758</u>	<u>9,591</u>	<u>12,366</u>	<u>13,983</u>	<u>15,120</u>	<u>22,693</u>	<u>35,010</u>	<u>27,605</u>	<u>145,126</u>
Current (December 31, 2010) statement of financial position liability	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ (1)</u>	<u>\$ (1)</u>	<u>\$ -</u>	<u>\$ 186</u>	<u>\$ 9,820</u>	<u>\$ 10,004</u>

c. ***Cash flow and fair value interest rate risk***

Cash flow risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. The Group takes on exposure to the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. Interest margins may increase as a result of such changes but may reduce or create losses in the event that unexpected movements arise. The Board sets limits on the level of mismatch of interest rate re-pricing that may be undertaken, which is monitored daily. Loans and held to maturity financial assets are subject to floating interest rates. If future interest rates were increased or decreased by 1% the statement of income would increase or decrease by \$1,210,409 (2009: \$1,195,197).

d. ***Market risk***

Market risk is the risk that the value of the financial instrument will fluctuate as a result of changes in market prices whether those changes are caused by factors specific to the individual security, its issuer or factors affecting all securities traded in the market. The Group manages its risk through the Investment Committee, which monitors the price movement of securities on the Bahamas International Securities Exchange (BISX). If future market prices were to increase or decrease by 10% this would result in an increase or decrease in other comprehensive income of \$647,410 (2009: \$586,903). Management mitigates this risk by diversification of its portfolio.

e. ***Credit risk***

The Group has exposure to credit risk, which is the risk that a counter party will be unable to pay amounts in full when due. Key areas represented by aggregate amounts disclosed on the face of the consolidated statement of financial position where the Group is exposed to credit risk are:

- Term deposits placed with banks
- Mortgage loans and loans to policyholders
- Amounts due from reinsurers
- Amounts due from insurance policyholders

The Group's term deposits are mainly placed with well-known high quality banks. Mortgage loans and loans to policyholders are fully collateralized by the relevant property assets and cash surrender values respectively.

Reinsurance is used to manage insurance risk. This does not, however, discharge the Group's liability as primary insurer. If a reinsurer fails to pay a claim for any reason, the Company remains liable for the payment to the policyholder. The creditworthiness of reinsurers is considered on an annual basis by reviewing their publicly available financial information prior to finalization of any contract.

The Group has one main reinsurer for its long-term insurance contracts, a large multinational corporation that has a Standard & Poors (S&P) rating of A+.

f. ***Liquidity risk***

The Group is exposed to daily calls on its available cash resources from claims arising from insurance contracts. Liquidity risk is the risk that cash may not be available to pay obligations when due at a reasonable cost. The Group maintains sufficient liquidity (cash and marketable securities) to meet all contractual liabilities as they fall due. The following table shows the undiscounted payout pattern, net of premiums, of the actuarial liabilities.

	<b>2010</b>					
	Not Classified	Up to 1 year	1 to 5 years	6 to 10 years	over 10 years	Total
Short-term insurance contracts	\$ -	\$ 12,081,514	\$ -	\$ -	\$ -	\$ 12,081,514
Long-term with fixed and guaranteed terms	7,176,077	(2,143,384)	463,714	12,367,048	171,066,753	188,930,208
Long-term without fixed and guaranteed terms	41,598,833	(386,481)	3,635,907	6,145,913	18,613,561	69,607,733
Long-term without fixed and guaranteed terms and with DPF	-	404,433	3,826,990	7,247,458	41,483,056	52,961,937
Total	<u>\$48,774,910</u>	<u>\$ 9,956,082</u>	<u>\$ 7,926,611</u>	<u>\$25,760,419</u>	<u>\$231,163,370</u>	<u>\$323,581,392</u>

	<b>2009</b>					
	Not Classified	Up to 1 year	1 to 5 years	6 to 10 years	over 10 years	Total
Short-term Insurance Contracts	\$ -	\$ 8,705,478	\$ -	\$ -	\$ -	\$ 8,705,478
Long-term with fixed and guaranteed terms	6,893,582	(1,652,569)	1,239,977	11,662,881	159,420,487	177,564,358
Long-term without fixed and guaranteed terms	35,711,732	(660,957)	3,141,096	5,548,524	16,193,724	59,934,119
Long-term without fixed and guaranteed terms and with DPF	-	347,912	3,520,135	6,768,433	39,262,362	49,898,842
Total	<u>\$42,605,314</u>	<u>\$ 6,739,864</u>	<u>\$ 7,901,208</u>	<u>\$23,979,838</u>	<u>\$214,876,573</u>	<u>\$296,102,797</u>

Amounts not classified consist of deferred annuity fund balances and amounts held for unclaimed endowments past their maturity date.

g. ***Capital risk management***

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximizing the return to shareholders through optimization of the debt and equity balance. The Group's overall strategy remains unchanged from 2009.

The capital structure of the Group consists of cash and cash equivalents and equity, comprising issued capital, reserves and retained earnings.

h. ***Operational risk***

Operational risk relates to the risk of direct or indirect loss resulting from inadequate or failed internal processes, people and systems or from external events. It is mitigated by communicated and enforced policies and procedures, staff training, and ongoing monitoring and review by management, as well as ongoing internal audit processes.

## 6. FINANCIAL INVESTMENT ASSETS

Financial investment assets comprise the following:

	2010	2009
<b>(a) Available for sale (AFS):</b>		
At beginning of year	\$ 6,613,077	\$ 7,243,165
Sale proceeds from equities	-	(21,815)
Realized loss from sale of equities	-	(21,370)
Change in unrealized loss on investment in equities through revaluation reserve	<u>(138,974)</u>	<u>(586,903)</u>
At end of year	<u>\$ 6,474,103</u>	<u>\$ 6,613,077</u>
<b>(b) Held-to-maturity (HTM):</b>		
Bahamas Government bonds	\$ 42,070,500	\$ 41,691,100
Bahamas Mortgage Corporation bonds	3,600,000	2,900,000
Bridge Authority bonds	307,400	307,400
Education Loan Authority bonds	6,300,000	6,300,000
Clifton Heritage bonds	<u>2,004,800</u>	<u>2,004,800</u>
Government bonds, at cost	54,282,700	53,203,300
Add: Accrued interest receivable	<u>1,007,652</u>	<u>1,002,324</u>
	<u>55,290,352</u>	<u>54,205,624</u>
Redeemable preferred shares, at cost	2,400,000	2,600,000
Add: Accrued interest receivable	<u>16,719</u>	<u>26,709</u>
	<u>2,416,719</u>	<u>2,626,709</u>
Corporate bond, at cost	2,750,000	1,750,000
Add: Accrued interest receivable	<u>33,053</u>	<u>8,145</u>
	<u>2,783,053</u>	<u>1,758,145</u>
Total financial investment assets held-to-maturity	<u>\$ 60,490,124</u>	<u>\$ 58,590,478</u>

Investments in equities comprise ordinary shares of Bahamian companies that are listed on the Bahamas International Stock Exchange (“BISX”).

In accordance with amendments dated October 13, 2008 to IAS 39 Financial Instruments: Recognition and Measurement and IFRS 7 Financial Instruments: Disclosures, the Group opted to reclassify its investment in equities from fair value through profit or loss to available for sale with effect from July 1, 2008. The carrying value of the investments in the reclassified equities is equivalent to the fair value and as at December 31, 2010 is \$6,474,103(2009: \$6,613,077). The fair value loss that would have been recognized in net income for the period ending December 31, 2010 had the investment in equities not been reclassified is \$138,974 (2009: \$586,903).

	<b>2010</b>	<b>2009</b>
<b>(c) Loans:</b>		
(i) Policy loans comprise:		
Policy loans	\$ 8,985,509	\$ 8,273,293
Automatic premium loans	<u>2,498,834</u>	<u>2,271,455</u>
	11,484,343	10,544,748
Add: Accrued interest receivable	<u>572,501</u>	<u>526,047</u>
	<u>12,056,844</u>	<u>11,070,795</u>
(ii) Mortgage loans comprise:		
Commercial:		
Current	3,846,855	4,221,745
Over 90 days	1,290,931	1,603,529
Residential:		
Current	54,626,236	52,586,807
Over 90 days	<u>3,152,619</u>	<u>3,436,353</u>
	62,916,641	61,848,434
Less: Specific provision for credit risk	(544,462)	(397,035)
Deferred commitment fees	<u>(454,876)</u>	<u>(468,719)</u>
	61,917,303	60,982,680
Add: Accrued interest receivable	<u>289,422</u>	<u>322,338</u>
	<u>62,206,725</u>	<u>61,305,018</u>
(iii) Other loans	<u>521,549</u>	<u>940,503</u>
Total loans	<u><u>\$ 74,785,118</u></u>	<u><u>\$ 73,316,316</u></u>

Policy loans and automatic premium loans (APLs) are allowed on Ordinary Life policies. An interest rate ranging from 10% to 11% (2009: 10% to 11%) per annum is charged on policy loans and APLs.

Movements in loan loss provisions are as follows:

	<b>Provision for Inherent risk</b>	<b>Provision for Specific risk</b>
Balance as of December 31, 2008	\$ 548,443	\$ 129,662
(Decrease) increase in provision	<u>(548,443)</u>	<u>267,373</u>
Balance as of December 31, 2009	-	397,035
(Decrease) increase in provision	<u>-</u>	<u>147,427</u>
Balance as of December 31, 2010	<u>\$ -</u>	<u>\$ 544,462</u>

An interest rate of 6.5% per annum (2009: 6.5%) is charged on residential mortgage loans to directors, officers and staff with two or more years of service. Related party interest income from mortgages for the year ended December 31, 2010 is \$68,244 (2009: \$123,584) and related party interest receivable on mortgages as of December 31, 2010 is \$2,702 (2009: \$4,085).

As of December 31, 2010, the Group had non-performing mortgage loans of \$4,443,549 (2009: \$5,039,882) for which interest of \$1,103,266 (2009: \$864,777) had not been recognized on the consolidated statement of income.

## **7. RECEIVABLES AND OTHER ASSETS**

Receivables and other assets comprise:

	<b>2010</b>	<b>2009</b>
Other receivables and other assets	\$ 2,443,253	\$ 2,214,195
Accrued interest receivable - bank term deposits	133,254	107,093
Utility deposits	<u>112,546</u>	<u>112,506</u>
	<u>\$ 2,689,053</u>	<u>\$ 2,433,794</u>

## 8. PROPERTY, PLANT AND EQUIPMENT

The movement of property and equipment for the year is as follows:

	2010							
	Freehold <u>Land</u>	Freehold <u>Buildings</u>	Furniture & <u>Equipment</u>	Motor <u>Vehicles</u>	Computer Hardware & <u>Software</u>	Leasehold <u>Improvements</u>	Construction <u>in Progress</u>	<u>Total</u>
Year ended December 31, 2010								
Opening net book amount	\$ 8,311,555	\$ 18,710,160	\$ 1,562,717	\$ 17,205	\$ 705,284	\$ 3,892,176	\$ 647,634	\$ 33,846,731
Additions	445,489	805,347	234,288	-	147,872	47,487	-	1,680,483

*(Concluded)*

Freehold land and buildings each include a revaluation surplus of \$5,099,436 (2009: \$5,099,436) and \$5,775,073 (2009: \$5,775,073), respectively.

An independent valuation of the Group's land and building was performed by Bahamas Realty to determine the fair value of the land and building. The valuation, which conforms to International Valuation Standards, was determined using the sales comparison method. The effective date of the valuation was August 26, 2008.

Had the Group's land and buildings been measured on a historical cost basis, their carrying amount would have been \$18,501,430 (2009: \$17,855,593).

## 9. RESERVES FOR FUTURE POLICYHOLDERS' BENEFITS

The Canadian Policy Premium Method (PPM) is used for the determination of reserves for future policyholder benefits of long-term insurance contracts.

As of December 31, 2010 the aggregate reserves for future policyholders' benefits and related life insurance in force are summarized as follows:

	<b>Reserves</b>		<b>Insurance in force</b>	
	<b>2010</b>	<b>2009</b>	<b>2010</b>	<b>2009</b>
Ordinary life	\$ 47,777,010	\$ 45,693,787	\$2,247,001,000	\$2,145,793,000
Annuities	44,149,059	38,573,114	-	-
Home service life	27,553,280	27,049,634	489,706,000	452,264,000
Accident and health	12,081,513	8,705,479	-	-
Gross Liabilities	131,560,862	120,022,014	2,736,707,000	2,598,057,000
Reinsurance assets	(4,578,238)	(4,446,296)	-	-
	<u>\$126,982,624</u>	<u>\$115,575,718</u>	<u>\$2,736,707,000</u>	<u>\$2,598,057,000</u>

The reserves for future policyholders' benefits are determined annually by actuarial valuation and represent an estimate of the amount required, together with future premiums and investment income, to provide for future benefits and expenses payable on insurance and annuity contracts. The reserves are calculated using assumptions for future policy lapse rates, mortality, morbidity rates, maintenance expenses and interest rates. The assumptions also include provisions for adverse deviation to recognize uncertainty in establishing the assumptions and to allow for possible deterioration in experience. The process of determining the provision necessarily involves risks that the actual results will deviate from the assumptions made.

Policy liabilities are calculated using best estimate assumptions with margins for adverse deviation.

(i) ***Mortality and Morbidity***

Assumptions for Home service life business are based on Group experience. Assumptions for other business lines are based on industry experience, as the Group does not have sufficient of its own experience. A margin is added for adverse deviation equal to 15 per 1,000 divided by the expectation of life for mortality and 8% to 10% for morbidity. If future mortality and morbidity rates were to differ by 10% from that assumed, the liability would increase by \$3,066,000 (2009: \$2,957,000) or decrease by \$3,071,000 (2009: \$2,944,000).

(ii) ***Investment Yields***

Assets are notionally allocated to life and annuity business lines. Expected investment yields are based on new money rates and expectant asset mix. A margin for adverse deviation is added by deducting 50 basis points from current rates and assuming future interest rates reduce to 5% over 20 years. If future interest rates were to differ by 1% from that assumed, without changing the policyholder dividend scale, the liability would increase by \$12,718,000 (2009: \$12,489,000) or decrease by \$8,705,000 (2009: \$8,541,000).

(iii) ***Persistency***

Lapse rates are based on Group's experience where credible experience is available and industry experience is used where credible Group experience is not available. A margin for adverse deviation is added by increasing or decreasing lapse rates; whichever is adverse, by 20%. If future lapse rates were to differ by 10% from that assumed, the liability would increase by \$814,000 (2009: \$793,000) or decrease by \$912,000 (2009: \$890,000).

(iv) ***Expenses***

Expenses are based on best estimates of Group experience. Expenses are increased 10% as a margin for adverse deviation. Expenses are assumed to increase annually at a rate of 3% initially, decreasing to 2% over 20 years. Home service business is assumed to increase annually at a rate of 4.5% initially, decreasing to 3.5% over 20 years. If future expenses were to differ by 10% from that assumed, the liability would increase by \$2,657,000 (2009: \$2,517,000) or decrease by \$2,624,000 (2009: \$2,481,000).

(v) ***Ongoing Review***

Actuarial assumptions are continuously reviewed based on emerging Group and industry experience and revised if appropriate and material.

(vi) ***Margins for Adverse Deviation Assumptions***

The basic assumptions made in establishing policy liabilities are best estimates for a range of possible outcomes. To recognize the uncertainty in establishing these best estimates, to allow for possible deterioration in experience and to provide greater comfort that the reserves are adequate to pay future benefits, the appointed actuary is required to include a margin in each assumption.

The impact of these margins is to increase reserves and so decrease the income that would be recognized on inception of the policy. The Canadian Institute of Actuaries prescribes a range of allowable margins. The Group uses assumptions at the conservative end of the range, taking into account the risk profiles of the business.

The movements in reserves for future policyholders' benefits and other policyholder benefits (namely insurance liabilities), by line of business, are summarized below:

*a. Short-term insurance contracts:*

	<b>2010</b>	<b>2009</b>
Liabilities at beginning of year	\$ 8,705,478	\$ 6,115,633
Usual change in In-Force Business and New Business	<u>3,376,036</u>	<u>2,589,845</u>
Liabilities at end of year	<u>\$ 12,081,514</u>	<u>\$ 8,705,478</u>

*b. Long-term insurance contracts with fixed and guaranteed terms:*

	<b>2010</b>	<b>2009</b>
Liabilities at beginning of year	\$ 43,974,990	\$ 41,390,653
Changes in Data, Methods, and Assumptions	(2,119,113)	(2,219,768)
New Business	(3,655,553)	(2,786,379)
Usual change in In-Force Business	<u>5,843,457</u>	<u>7,590,484</u>
Liabilities at end of year	<u>\$ 44,043,781</u>	<u>\$ 43,974,990</u>

*c. Long-term insurance contracts without fixed and guaranteed terms:*

	<b>2010</b>	<b>2009</b>
Liabilities at beginning of year	\$ 46,112,135	\$ 41,884,019
Changes in Data, Methods, and Assumptions	245,358	(290,655)
New Business	7,136,888	3,517,700
Usual change in In-Force Business	<u>(102,561)</u>	<u>1,001,071</u>
Liabilities at end of year	<u>\$ 53,391,820</u>	<u>\$ 46,112,135</u>

(Continued)

d. *Long-term insurance contracts with fixed and guaranteed terms and with Discretionary Participation Features (DPF):*

	<b>2010</b>	<b>2009</b>
Liabilities at beginning of year	\$ 16,783,114	\$ 16,003,487
Changes in Data, Methods, and Assumptions	(761,660)	(397,130)
New Business	(385,205)	(298,375)
Usual change in In-Force Business	<u>1,829,261</u>	<u>1,475,132</u>
Liabilities at end of year	<u>\$ 17,465,510</u>	<u>\$ 16,783,114</u>

Long term insurance contracts with DPF are not measured at fair value due to the lack of a reliable basis for measuring it.

<b>Total for all lines of business</b>	<b>2010</b>	<b>2009</b>
Liabilities at beginning of year	\$115,575,718	\$105,393,797
Changes in Data, Methods, and Assumptions	(2,635,417)	(2,907,554)
New Business	3,096,130	432,944
Usual change in In-Force Business	<u>10,946,193</u>	<u>12,656,531</u>
Liabilities at end of year	<u>\$126,982,624</u>	<u>\$115,575,718</u>

(Concluded)

## 10. OTHER POLICYHOLDERS' FUNDS

Other policyholders' funds relate to unpaid benefits, premiums received in advance, unearned premiums and accumulated dividends.

## 11. PAYABLES AND ACCRUALS

Amounts due to reinsurers for reinsurance contracts at December 31, 2010 was \$3,194,830 (2009: \$2,920,283) and is included in the payables and accruals in the consolidated statement of financial position.

## 12. BANK OVERDRAFT FACILITIES

The Group has bank overdraft facilities of \$ 250,000 (2009: \$250,000). Amounts utilized under the facilities attract interest at Nassau prime plus 1.5%.

### 13. REVALUATION RESERVE

Revaluation reserve is comprised of the following:

	Financial Investment Assets <u>Revaluation</u>	Fixed Assets <u>Revaluation</u>	Total Revaluation <u>Reserve</u>
<b>Balance as of December 31, 2008</b>	\$ (496,893)	\$ 10,874,509	\$ 10,377,616
Adjustment to fair value of investment in equities	<u>(586,903)</u>	<u>-</u>	<u>(586,903)</u>
<b>Balance as of December 31, 2009</b>	(1,083,796)	10,874,509	9,790,713
Adjustment to fair value of investment in equities	<u>(138,974)</u>	<u>-</u>	<u>(138,974)</u>
<b>Balance as of December 31, 2010</b>	<u>\$ (1,222,770)</u>	<u>\$ 10,874,509</u>	<u>\$ 9,651,739</u>

### 14. SHARE CAPITAL

The Group's share capital is comprised as follows:

	Variable Rate Cumulative Redeemable Preference Shares of \$1,000 each par value		Ordinary Shares of \$0.20 each par value	
	<b>2010</b>	<b>2009</b>	<b>2010</b>	<b>2009</b>
Authorized	<u>10,000</u>	<u>10,000</u>	<u>15,000,000</u>	<u>15,000,000</u>
Issued and fully paid	<u>\$ 10,000,000</u>	<u>\$ 10,000,000</u>	<u>\$ 2,000,000</u>	<u>\$ 2,000,000</u>
Shares outstanding at beginning of year	<u>10,000</u>	<u>10,000</u>	<u>10,000,000</u>	<u>10,000,000</u>
Shares outstanding at end of year	<u>10,000</u>	<u>10,000</u>	<u>10,000,000</u>	<u>10,000,000</u>

The Variable Rate Cumulative Redeemable Preference Shares (preference shares) carry a dividend rate of Nassau prime plus 1.5% per annum payable semi-annually. Dividends are declared by the Board of Directors in their sole discretion. The preference shares have no predetermined maturity date, yet the Group may call for the redemption of all or part of the issue on or after December 31, 2005 upon 90 days written notice. The preference shares rank with respect to the payment of dividends and distributions on liquidation: (1) senior to the Group's ordinary shares and (2) subordinate to any debentures, debt obligations, or policyholder claims currently or which the Group may enter into. The holders of the preference shares have no equity ownership or voting rights. There were no outstanding cumulative preference share dividends at the end of the year.

The excess of the issue and purchase price of the ordinary and preference shares over the par value less the costs incurred with the tender offer have been credited to the share premium account.

## 15. NET PREMIUM INCOME AND ANNUITY DEPOSITS

Net premium income and annuity deposits are comprised of:

	2010	2009
Short-term insurance contracts	\$64,311,929	\$58,998,289
Long-term insurance contracts with fixed and guaranteed terms	17,545,844	17,424,885
Long-term insurance contracts without fixed and guaranteed terms	17,137,371	14,333,608
Long-term insurance contracts with fixed and guaranteed terms and with discretionary participation feature (DPF)	4,342,796	3,930,325
Change in premium receivables	-	903,325
Change in unearned premium provisions	<u>-</u>	<u>(211,250)</u>
Premium revenue arising from insurance contracts issued	103,337,940	95,379,182
Premiums ceded for short-term and long-term contracts to reinsurers	<u>(11,966,912)</u>	<u>(11,602,762)</u>
	<u>\$91,371,028</u>	<u>\$83,776,420</u>

## 16. POLICYHOLDERS' BENEFITS

Policyholders' benefits for the year ended December 31, 2010 by insurance contracts were as follows:

	<b>2010</b>			<b>2009</b>		
	Gross	Reinsurance	Net	Gross	Reinsurance	Net
Short-term insurance contracts	\$44,161,163	\$ (6,859,698)	\$37,301,465	\$40,774,213	\$ (3,353,106)	\$37,421,107
Long-term insurance contracts with fixed and guaranteed terms	7,778,674	(2,092,889)	5,685,785	3,979,141	(1,047,536)	2,931,605
Long-term insurance contracts without fixed and guaranteed terms	9,088,964	-	9,088,964	8,156,053	-	8,156,053
Long-term insurance contracts with fixed and guaranteed terms and with discretionary participation feature (DPF)	<u>2,198,616</u>	<u>-</u>	<u>2,198,616</u>	<u>2,207,590</u>	<u>-</u>	<u>2,207,590</u>
	<u>\$63,227,417</u>	<u>\$ (8,952,587)</u>	<u>\$54,274,830</u>	<u>\$55,116,997</u>	<u>\$ (4,400,642)</u>	<u>\$50,716,355</u>

## 17. OPERATING LEASES

The Group leases certain office premises under non-cancellable operating leases. Future minimum rental commitments as of December 31, 2010 are as follows:

	2010	2009
Up to 1 year	\$ 1,597,903	\$ 1,556,000
1 year to 5 years	<u>30,000</u>	<u>150,379</u>
	<u>\$ 1,627,903</u>	<u>\$ 1,706,379</u>

## 18. TAXATION

There are no corporate, income or capital gains taxes levied in The Bahamas and the Group, therefore, pays no taxes on its net income. However, taxes based on premium income, levied at 3%, for the year ended December 31, 2010 amounted to \$2,760,269 (2008: \$2,607,654) and is included within operating expenses in the consolidated statement of income.

## 19. PENSION PLAN

The Group's pension costs net of forfeitures in respect to the Plan for the year ended December 31, 2010, amounted to \$331,771 (2009: \$412,568) and is included in operating expenses in the consolidated statement of income.

## 20. COMMITMENTS

Outstanding commitments to extend credit under mortgage loan agreements amounted to \$1,552,570 of December 31, 2010 (2009: \$1,742,378).

## 21. RELATED PARTY TRANSACTIONS AND BALANCES

Balances and transactions between the Company and its subsidiaries, which are related parties of the Company, have been eliminated on consolidation and are not disclosed in this note.

The following are related party transactions not disclosed elsewhere in the consolidated financial statements:

***Key management personnel compensation:***

	<b>2010</b>	<b>2009</b>
Salaries and other short-term employee benefits	\$ 1,591,440	\$ 1,518,940
Post-employment benefits	<u>45,855</u>	<u>(5,702)</u>
	<u>\$ 1,637,295</u>	<u>\$ 1,513,238</u>

***Directors' remuneration:***

In 2010, the total remuneration of the directors was \$349,202 (2009: \$342,673).

The Group sponsors a plan as an on-going incentive system for its key employees. The plan holds shares of the parent company and these shares are awarded to the plan participants on an annual basis for services rendered in the previous year or as special awards for a promotion or upon hiring at the executive level. The Group makes cash awards as the need arises to the plan and the plan purchases the shares as needed on the open market at market value. The shares vest over a period of years, depending on the type of award granted.

Included in total loans are mortgages to related parties in the amount of \$958,274 (2009: \$1,379,551).

In addition to the above, the Group performed certain administrative services for Sagicor Life, for which a management fee of \$66,000 was charged and paid.

## 22. POST-RETIREMENT MEDICAL BENEFIT

The Group introduced a post-retirement medical plan on January 1, 1999 for employees who retire after that date. Cost sharing with participants varies with year of retirement and years of service to the Group. The Group's contributions will be provided, as premium payments are due, for retired participants.

The most recent actuarial valuation was carried out by TowerWatson. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

	<b>Other Postemployment Benefits</b>	
	<b>2010</b>	<b>2009</b>
<b>Change in Defined Benefit Obligation (DBO)</b>		
Benefit obligation, beginning of year	\$ 353,947	\$ 310,967
Current service cost	24,421	27,636
Interest cost	26,312	25,039
Actuarial loss	35,424	801
Gross benefits paid	<u>(16,640)</u>	<u>(10,496)</u>
Benefit obligation, end of year	<u>\$ 423,464</u>	<u>\$ 353,947</u>
Weighted-average assumptions used to determine defined benefit obligation at end of year:		
Discount rate	7.50%	7.50%
Medical cost trend rate	5.00%	5.00%

	<b>Other Postemployment Benefits</b>	
	<b>2010</b>	<b>2009</b>
<b>Change in Plan Assets</b>		
Fair value, beginning of year	\$ -	\$ -
Employer contribution	16,640	10,496
Plan participant's contribution	<u>(16,640)</u>	<u>(10,496)</u>
Fair value of plan assets, end of year	<u>\$ -</u>	<u>\$ -</u>

There are no assets associated with the Group's post retirement medical benefit plan.

## Funded Status

The funded status at the end of the year, and the related amounts recognized in the statement of financial position is as follows:

	<b>Other Postemployment Benefits</b>	
	<b>2010</b>	<b>2009</b>
<b>Funded status, end of year</b>		
Benefit obligation, unfunded plans	\$ (423,464)	\$ (353,947)
Unrecognized net actuarial loss	<u>74,545</u>	<u>39,121</u>
Net amount recognized, end of year	<u>\$ (348,919)</u>	<u>\$ (314,826)</u>

Amounts recognized in the statement of financial position consists of:

Current liability	\$ (16,640)	\$ (10,496)
Noncurrent liability	<u>(332,279)</u>	<u>(304,330)</u>
	<u>\$ (348,919)</u>	<u>\$ (314,826)</u>

	<b>Other Postemployment Benefits</b>	
	<b>2010</b>	<b>2009</b>
<b>Experience adjustments</b>		
DBO, end of year	<u>\$ (423,464)</u>	<u>\$ (353,947)</u>
Funded status	<u>\$ (423,464)</u>	<u>\$ (353,947)</u>

## Expected employer contributions

The Group expects to contribute \$16,640 to the other postretirement benefits plan in 2011. This is attributable to benefits expected to be paid from corporate assets.

	Other Postemployment Benefits				
	2010	2009	2008	2007	2006
Components of benefit cost recognized in profit and loss					
Current service cost	\$ 24,421	\$ 27,636	\$ 25,708	\$ 23,914	\$ 22,246
Interest cost	26,312	25,039	22,040	19,385	17,040
Actuarial loss	-	1,525	1,658	2,424	4,234
Past service cost recognized	-	-	-	257	2,335
Net benefit cost in statement of income	<u>\$ 50,733</u>	<u>\$ 54,200</u>	<u>\$ 49,406</u>	<u>\$ 45,980</u>	<u>\$ 45,855</u>
Weighted-average assumptions used to determine defined benefit obligation at end of year:					
Discount rate	7.50%	7.50%	7.50%	7.50%	7.50%
Medical cost trend rate	5.00%	5.00%	5.00%	5.00%	5.00%

## 23. COMMITMENTS AND CONTINGENT LIABILITIES

The Group is a defendant in several legal actions arising in the normal course of its business affairs. Management believes that the resolution of these matters will not have a material impact on the Group's financial position.

## 24. EARNINGS PER ORDINARY SHARE

	2010	2009
Weighted average number of ordinary shares outstanding	10,000,000	10,000,000
Consolidated net income attributable to ordinary shareholders	<u>\$ 4,463,619</u>	<u>\$ 2,905,543</u>
Earnings per ordinary share	<u>\$ 0.45</u>	<u>\$ 0.29</u>

## 25. BUSINESS SEGMENTS

The Group is organized into two main business segments; life insurance and health insurance. All other segments are deemed insignificant to the Group's operations.

The segment results for the period ended December 31 rounded to the nearest thousand are as follows:

	<b>2010</b>		
	(\$000)		
	<u>LIFE</u>	<u>HEALTH</u>	<u>TOTAL</u>

(Concluded)

## 26. SUBSEQUENT EVENT

On February 11th, 2011 the Board of Directors declared a fourth quarter dividend of \$0.06 per share or \$600,000 to shareholders of record as of February 23, 2011 and payable March 2011.

## 27. COMPARATIVE FIGURES

Certain of the prior year's comparative figures have been reclassified to conform to the current year's presentation.

### *Consolidated statement of financial position*

- i. Reinsurance assets associated with policyholder reserves totaling \$4,446,296 were reclassified from reserves for future policyholders' benefits to reinsurance assets.
- ii. Reinsurance recoveries totaling \$673,097 were reclassified from receivables and other assets to reinsurance assets and recoveries.
